Thread: [Requesting Intro \[Very Easy, you have the template here\]](#)

n1kzinHD - January 2, 2015, 8:49 am

Hello guys. Well, you know that Sony Vegas Pro 13.0 is only released in 64 bit version, which my PC doesn't accept that. I'm 32 bit user. I have Sony Vegas Pro 11, but I can't edit the intro I'd like, which it is great.

- So, if you can edit an intro for me, It will be appreciated a lot. Only those who can edit. I really gonna respect anyone who would do this for me.

This is the intro, I'd like it edited, you have templates there, who has Sony Vegas Pro 13, if you can edit it, I'd be thankful.

How would I like it?

- First screen, on the loading one, the logo (RavenProDesign) I would like it re-switched with (WtLsS Clan). I'll type the things I want reswitched in ().

So basically, all of that green things should be in the intro instead of the default ones. It will be appreciated a lot in advance. I'm not sure if I can pay, whether my friend's PayPal is blocked, but if I can, I'd pay you \$1, for this easy job. Cheers, happy holidays & happy new year!

I've downloaded this before, and you only get the loading thing. You don't get the epic after part with all the words. Sorry mate.

I want to help you but as Dalek says, you don't get everything, only the first part. If you know any other template you want me to edit, send me a PM and I'll help you (only \$1 ?)
