Thread: [Look here, Buy anything using your BTC.](#)

Factor8™ - January 2, 2015, 10:14 am

I've decided to offer a new Service here for people who have BTC and face issues whilst converting it to the most frequently used payment processors such as PP/CC etc... after this [Feedback](#) I received.

With my service, it's easy and simple. You wish to purchase stuff from Ebay/Amazon/Pay off your hosting server bills? No problems. I can purchase stuff for you/pay off your bills/literally anything on any website wherever they accept a Legit CC/PP payment or more!

This is what I can do currently.

Pay your hosting bills.

Recharge/Pay Cellphone Bills for Indian users. Purchase stuff from Amazon/Ebay/Flipkart/Snapdeal etc...

Purchase stuff from legal websites and get shipped at your home address.

Rates will be 10% here. Implying you need a \$100 product, you pay me \$110 BTC.

For Indian users, I'll be taking BTC@Rs55/\$ and buy your product...Implying you need me to purchase anything from an Indian website for say Rs1000/ You pay me \$17.54 in BTC.

The possibilities are endless here. I can do more depending on the situation. Anything is possible here.

Currently I've 3 members on HF who have paid me with BTC in return for payments to their Cloud flare business account on a recurring monthly basis.

I can buy stuff for you from any website which allows a legit PP/CC payment here.

Anything is possible here. Whatever you want.

Treat this as an exchange or whatever. I've been on HF for a long time and my credentials are impeccable. I don't believe in ripping off anyone who bestows trust in me.

Thanks. ?

Edit: I reserve the right to increase rates depending on the website/product since some sites are being a douche and charging my CC way beyond the Forex commission while ordering stuff. If it's an issue, I'll PM you and let you know.

I sent you a PM, I look forward to your reply.

Normally it should be worldwide. And it's no site here for the percentile conversion. It depends.

Bump for high interest, seems like a very legit service.

420 Blaze It - January 4, 2015, 9:17 pm

This is actually one of the best services ever, it's a Currency Exchange and a service in one, for example you may need to exchange your Bitcoins to PayPal but then your PP might get limited or it needs to be verified, F8 just does it for you.

Frenid - January 4, 2015, 10:12 pm

Looks like awesome service.

Vouch for F8

DuguWudi - January 6, 2015, 8:12 am

One question please, since the rate is 10%, does it mean if the item is US\$5000, that means the rate price is US\$500?

Thanks.

Flaxpicker - January 6, 2015, 10:01 am

Looks like an awesome service

I used to do this myself but I had to recently stop due to some issues...I'll try to send my 'customers' your way.

I am sure you'd have to take that auction yourself, meaning you use a reship forwarding service.

Anyways, very nice service. ?
