Thread: [TheInternetTool.nl - All Your Tools In 1 Website! - Various tools!](#)

AngularJS - January 2, 2015, 11:17 am

Hey hackforums!

I coded a brand new site, called [theinternettool.nl](#).
I try to add as much tools as possible.

Current tools:
Skype Resolver
Host to IP
GeoIP
Website down or not
Link Shortener

Email for advertising: larskoekje@gmail.com

Enjoy the free tools!

Greetings, XAnacondaX!

Thanks,

I will keep adding more functions!

Good website, I like it's interface; it is simple and clean.
But what skype resolver API is it using?
EDIT:
Oh, <http://api.c99.nl> that;s okay.

I'm getting one of my friends.

Thanks for the vouch.

ur website is concurrently down? is that right mate?

(i am dutch to)

?

DashPHP - January 3, 2015, 4:33 am

SPAM says website not found :(

AngularJS - January 3, 2015, 4:48 am

Currently contacting host, they want to review for malicious content :o

Why do they never trust me, the good guy? :p

Website back up again, enjoy the tools for now!

ItzFreeze - January 3, 2015, 5:29 am

Vouch for this guy his website is AWESOME!

?

AngularJS - January 3, 2015, 5:34 am

Switching to other webhost, site offline for a moment.

HitSweMan - January 3, 2015, 5:34 am

This is like binary's website. Nice job m8!

The website is down...

AngularJS - January 3, 2015, 8:17 am

Now we're 100% up and running!

Changed to a better host!
