GUI is awesome, nice share.

pr0t0typ3 - June 5, 2010, 9:59 am

What do you mean by key? shourtcut?

This contradicts the quote in your signature

You Are Free - June 5, 2010, 10:12 pm

This uses a keyboard hook to find when someone presses the specified key, and when it is pressed it will end the process specified. Useful if you don't want someone to see what your doing.

Mr Smith - June 5, 2010, 10:15 pm

I think microsoft made something like this...oh ya "Alt + F4" lol.
