Hey guys, was just browsing youtube when I came across this:

<https://www.youtube.com/watch?v=TXV-bwGDK4c>

Also works with "Rockin Road" or "Rollin Road" (or summat like that :P) mission.

Been working a treat for me, went from level 4 to 29 today alone.

I was able to do it a few minutes ago on xbox 360. I don't think they've patched it yet unless its different depending on the console you have.

I'm level 84 so it might not be that helpful for me, but I'll try and give it a go later today. Thanks for sharing.

NoobCell - January 4, 2015, 8:25 am

This hasn't been patched yet, would only advice it as a way of ranking up, as it doesn't seem to be good at making money as you need to spend about \$10 on ammo at the start of the mission :P

cobey321 - January 4, 2015, 12:25 pm

its been patched on the xbox one anyways just tested and couldnt get in the wall
