HamRollNoHam - January 3, 2015, 4:27 pm

Hey guys, this is my first ever E-Book and it's a full E-whoring tutorial, with a method that works quite well with me.

MEDIAFIRE DOWNLOAD LINK: [/?c6n13qedjwp0qhn](#)

(Just paste that onto the end of mediafire . com)

it's a PDF and it's taken me over 5+ hours to create... so please, don't steal it or anything much love

VirusTotal Scan: <http://tinyurl.com/p8amwpc>

I'd love some feedback from you guys! So please enjoy! <3 ??

Hey man, I'd appreciate it if you posted a virus scan and more information about this ebook! Thanks for helping out the community though!

Ooglies - January 3, 2015, 4:30 pm

I feel that you've copied this and just got it from another forum, i may be wrong though so thank you in advance :P

Hope many people find your guide to be helpful!

You could shrink some text down.

But I understand what you're getting at. Good job :)

Thanks for contributing with the guide. I'm not sure it would take 5 hours to write this, but this info is definitely good for beginners. I'm for anything that helps to educate the community :)

Keep up the good work.

Copied from hacksociety, you wasn't wrong

But still thank you for copying, appreciated because we use hackforums, and not hacksociety ?

"Assuming you've found the "Register Now" button after clicking "Account" you're going to want to put in the e-mail adress that you made, remember, you CANNOT use the one that you activated on craigslist, fuck knows why."

what does that mean?

blacksheep214 - January 4, 2015, 11:13 pm

Thanks for the pdf and the questions answered.Appreciate it.
