Thread: [Bunch Of social media Bots.](#)

??? - January 3, 2015, 7:28 pm

Hey Hack Forums,

I was going through my computer and i found a bunch of old bots i used to use for social media. I have my own custom made one now so they are useless to me. All you'll need is accounts, some have generator. You'll also need Proxies, some require HQ other normal.

(X) - How many more i will give away.

The Bots I have Now Are :

(12) An Account GEN, G Mail / YouTube.

(7) Instagram bot

(4) HQ Instagram Bot (upgraded members only)

If you would like any feel free to send me a PM, all the bots come with a virus scan and screenshots in the PM.
