Thread: [||Updated Botnet List and FAQs|| Lists all Botnets on HF and More! Updated 3/3/15](#)

Lil D AKA Stem Cells - January 3, 2015, 9:06 pm

Attention Everyone

Whenever I turn to look at this section, all I see are people asking what the "best botnet" is and are too lazy to look. I was pretty bored and I made a list of most of the Botnets, HTTP and IRC, Paid and not paid, all on HF and other forums.

Note, I will update this with new botnets and new services. Click on the name of the Botnet you want to get started...

UPDATE: FAQs are now at the bottom! Good Luck!

HTTP

PAID

[Coiner HTTP](#)
[Kraken HTTP](#)
[Apollon HTTP](#)
[IcYYou HTTP](#)
[LoadHTTP](#)
[Athena HTTP](#)
[Excelsior HTTP](#)

FREE

[Cythosia](#)
[Umbra](#)
[Volk](#)
[uBot](#)
[Di Botnet](#)
[SolarBot-PM ME for a clean copy](#)
[VertexNet](#)
[Rebel Botnet](#)

IRC

[TOR IRC](#)
[Olethros IRC](#)
[Lizard IRC](#)

[Athena IRC](#)
[IcYYou IRC](#)
[BitBot IRC](#)
[Load IRC](#)
[Flow IRC](#)
[Silent Knight IRC](#)

Botnet Setups

FAQs

Q: What is a botnet?

A: a network of private computers infected with malicious software and controlled as a group without the owners' knowledge, e.g., to send spam messages. (Google) My definition: The coldest fucking thing ever. DDoS, DLL&EXE, BotKILL, etc. The list goes on and on...[/i]

Q: What is an HTTP botnet?

A: An HTTP Botnet has a Graphical User Interface where the all of the botnets are listed. Everything on the actual command panel is laid out. Here, it is easy to send and commands like "Download and Execute" or "BotKill." Along with these options, you also can see all of the information about the specific zombie. In most botnets, you can search for and sort by location, ip address, usernames, etc.

Q: What is an IRC botnet?

A: Unlike HTTP, IRC Botnets use an Internet Relay Chat to relay signals and commands to all of the bots on the network. That is why it is really easy and fast when someone uses an IRC to send

commands to DDoS. These IRC botnets have other commands but they are not as commonly used as much as an HTTP would.

Q: Whats the best botnet?

A: It really depends what you want, most of the great botnets you have to pay for. But there are still a bunch of free beginner's botnets out there. So, to answer your question? Look below.

Q: Best free beginner botnet?

A: I have fallen in love with [uBot](#). I really just think it is the perfect beginner's botnet.

Q: Best beginning paid botnet?

A: For HTTP: I would definitely say [Coiner HTTP](#). Shield is one for the best coders here on HF and his botnet definitely shows it. It has a lot of features with some great stability.

A: For IRC: [ShadowClaws IRC](#). New. Fantastic coder. Tons of features with stability. One of the best IRCs on the market today.

Q: Whats the best botnet for DDosing?

A: For specifically DDoSing, you should always use an IRC botnet, most of them are specifically designed for DDoSing and not as many other features. I would recommend using [Athena IRC](#). Athena IRC is and has been one of the strongest botnets in history. It is able to achieve full scale DDoS attacks.

Q: Whats the best botnet for download and executing?

A: Even some of the simplest bots are able to achieve these easy tasks, but the main thing that you should look in to is the stability of the Botnet itself. If it is stable, you can do pretty much anything you want with it. It really is insane the amount of things you can do. For the stable botnet, I would say [LoadHTTP](#). It has some amazing features and the best stability on HF.

Q: How do I set these botnets up?

A: Either buy a service or watch a couple of youtube videos and read about it. Setting up a botnet is not easy work, it takes time and effort and patience. If I have time, I will attempt to make a video setting up a botnet in the near future.

Q: I want to buy some bots, what are the best bot sellers?

A: The ones I have listed there are all great, they are all fantastic guys and great bot sellers. If I had to lean towards one, I would say [Johnny's Bot Shop](#). Johnny is a super great guy with great customer service. He knows his stuff and really enjoys doing what he does.

Q: How do I spread my bot to infect more people?

A: A really good way to spread by yourself is by using some social engineering to influence people to download your stub. I sell an Ebook on how to monetize your botnet and 5 Never before ways to spread your stub for only \$20.

I am also

selling an Ebook on how to make money using these bots, and different spreading methods, so don't hesitate to PM me if you are interested!

I also have a few botnets in my arsenal...

This took a while, like 6 hours to complete, so be nice! If I forgot any, let me know down below or PM ME!

Senna - January 3, 2015, 9:08 pm

Gopnik is no longer sold. As I was told by Cortex.

Lil D AKA Stem Cells - January 3, 2015, 9:08 pm

Alrighty Thanks! Will change it right away!

Doxicity - January 3, 2015, 9:10 pm

<https://hackforums.net/showthread.php?tid=4617604>

Please add Athena HTTP to the list, thanks!

Thread looks good, nice job.

Z3n M4ster - January 3, 2015, 9:10 pm

..... Its not a real bot if the user is selling the builder?

Wtf is a TOR based DDOS?

Im 99% sure one of the guys just edited out smokeloader with a new name and made the banner smaller.

This is a list yes but don't encourage people to waste there money.

You missed many bots off of HF and other than Kraken you failed to mention any bot worth the money or that is currently deployed by anyone who is serious about what they do.

(Jan 3, 2015 10:10 PM)Doxicity Wrote: [\[CITE\]](#) Please add Athena HTTP to the list, thanks!

Thread looks good, nice job.

You mean that bot with 4 public SQLi flaws.

?Genocide(X) - January 3, 2015, 9:12 pm

Are you posting some shady material?I don't know why but are you?Reason is when I clicked some of your links Malwarebytes has acted up. Look [here](#)

My point is if you give people links to garbage then they will buy garbage and be back once they realize what they've done. A single guide on what to look for in a bot would have been more beneficial. You compiled these links which I suppose is helpful in most other sections but the HTTP section only contains one bot that doesn't show obvious flaws even in the sales thread itself. TOR based ddos doesn't exist so if the coder had any idea what he was doing why would he say that. Half of these bots if you do a quick google or search on other forums show SQL errors making it as easy as copy and paste to jack someones whole botnet. It's not your fault for the bots being shitty just think about how someone genuinely interested in this topic could be mislead and cheated out of there money when people act like these are approved bots.

I see your point here and its a very valid one. I just want people to know what some of the botnets

are because I see questions like "looking for HTTP botnet" and "IRC botnets?" and I hate that and find it annoying. Tomorrow, when I have some more time, I will add a part to the thread directing people on what they want and the correct botnet for the task. Thanks for the Input! I really appreciate it!

Z3n M4ster - January 3, 2015, 9:37 pm

Wasn't trying to be an asshole, if you want real bots check damage or private forums. Nice list most of the free bots wont work on modern systems, but the IRC section seems pretty decent it's pretty hard to fuck up an IRC bot so HF sellers have it down more than likely.

Lil D AKA Stem Cells - January 3, 2015, 9:40 pm

No I completely understand that you weren't being an asshole, It was just constructive criticism. This list is mostly for people who are likely new to Botnets and this will give them a little Boost.

The Sky Daddy - January 4, 2015, 6:45 am

OP

Akashje - March 3, 2015, 11:57 pm

awsome list man , thanks for the info.
I am just starting to learn so this will come in handy.

Disciples - March 9, 2015, 12:37 am

Thanks for making this HQ thread, Im sure it will help alot of newbies on here. Also thanks for adding my service on the list.

TerminalLance - April 12, 2015, 10:09 pm

thank you for this post man! awesome

Dickyb0bSue - April 12, 2015, 11:48 pm

why does the http bots get a paid or free section?, irc bots can be paid or free also...

StreetYO - April 13, 2015, 1:53 pm

Thanks! Very Very Good BotNet DDoss IRC

Clifford L - April 13, 2015, 4:50 pm

Nice little thread you have here.

It would be nice if you could list which one's are better in order.

dirtybeard - April 15, 2015, 8:24 am

Hey I'm a student, I'm busy student different languages and stuff right now so can't really spend the time looking into the details of bots like I'd like. I like this thread. But it raises more question than I can count. I keep coming back to this question. Why do I see specs that say you can rent bots or something similar but not kill them. What is the recovery of bots? Do some people send them places that they don't come back from? And where is a post that discusses the quality of bots, like their freshness or where they came from. I assumed whoever sold them created them. I can't wait I have time to hang out here more.

advscan - April 15, 2015, 9:08 am

well thanks for this post but also irc is outdated

Munchy - April 15, 2015, 1:04 pm

nice thread, im currently weighing up my options and still shopping around for stuff and this thread has helped out alot :)

nexti0955 - April 15, 2015, 2:28 pm

thanks to you I found a crack kraken. This topic is very useful

Awdr - April 18, 2015, 6:43 am

BUMP This is a good list, thanks!

Decaf.HF - April 26, 2015, 7:52 pm

thanks i will try some of these

nepHaXOr - May 22, 2015, 8:53 am

Thanks mate for the info :)

mountain301 - June 2, 2015, 3:27 am

it gave me this error while uploading the .zip :Warning:" ftp_put() [function.ftp-put]: Could not open data connection to port 53058: Cannot assign requested address in /home/mainhost/public_html/file-manager/includes/filesystem.inc.php on line 2566" what can i do?

AForAmazing - June 2, 2015, 2:20 pm

Are you making a video soon? I'd appreciate it!

PesiHUN - July 2, 2015, 8:11 am

please send me a clean solarbot link

iCYz - July 2, 2015, 8:24 am

Thanks for this, will take a look at the links and see what i like and prefer out of them.

Retaw - July 7, 2015, 9:47 pm

interesting thread, although it is of no use to me ?

rageSpreed - July 10, 2015, 2:04 pm

Excellent list,
i will pickup something in a near future.
thanks for the work.

Oilly893 - July 16, 2015, 2:02 am

If your online and you sell bots please pm me!!

pixel375 - July 16, 2015, 4:59 pm

Amazing article! Thanks so much!

SIM-2198759 - July 17, 2015, 7:01 am

Looks really nice, its a shame doesnt have a miner, but i think its possible to inject a silent and FUD miner.

LennyTheThird - August 1, 2015, 7:19 pm

Great thread mate.Good for beginners.

EmTea - August 3, 2015, 1:56 pm

This is amazing thanks! I plan to start with ubot, and I already have a vpn, but I need to get hosting and a crypter. What is a good crypter to use (I know it will cost \$)? Also what hosting do you prefer? - I found orangewebsite.com/ and I think I want to go with this. Has anyone used this before and could vouch for them? I want to get the silver plan, is that going to work?

xruzty - August 5, 2015, 7:05 am

Awesome thread... Helps a lot.. Thanks :)

kolec94 - August 12, 2015, 11:33 am

you should update this thread

LayersOSImodel - August 12, 2015, 3:34 pm

thank you very much for your share

topkekm80s - August 14, 2015, 8:44 am

Pretty cool list! Thanks!

Amaterasu - October 1, 2015, 9:19 am

Hello there. I'm new here , so I would ask you about DDoSing. Before 2 months i had account in stresser website for free so I was able to DDoS , but the account isn't available now. Is there a way to DDoS without paying? Find me in skype 'kris_720'.

Zeffa - April 27, 2016, 8:22 pm

please pm me a copy of solar

davd665 - April 28, 2016, 7:47 am

Nice thread, Just a reminder for me

hextra6 - May 2, 2016, 6:57 am

This list are really amazing, downloading mood

Nice grave dig. Most of these aren't even updated.

holybishop - May 4, 2016, 12:48 pm

Nice thread, though grave dig but still worth it

lazers198 - May 20, 2016, 10:44 am

Really interested in this topic, I'm afraid I'm a bit too new to delve this deep into the advanced hacking forum. Back to beginner tutorials for me

gooby2 - May 21, 2016, 3:11 pm

any free botnets in 2016?.. no ddos please !!!

lazers198 - May 21, 2016, 3:31 pm

Things on this forum aren't going to be handed to you on a silver platter. Read the original post and you'll be able to see the answer. Researching is your friend in this field.

IHitNoobs - January 14, 2017, 11:08 pm

posting to come back to this tmrw thanks man

Warmest - January 22, 2017, 5:21 am

Hello,

Thanks for the thread! Really cool

Regards,
Warmest
