Hey Everyone!

So, I finally received custody of my domain name after a small dispute with the previous owner. I then lost my server host so I had to scramble to get a new host. Now I've spent the past 3 days rebuilding everything and finally am ready for launch! (I'm still moving a few things around and adding stuff as well as changing the theme so bear with me for the next week)

The Pirate Cove is a forum where you can share torrents, keys, keygens, cracks, and other things like that. Which is very convenient for anyone who needs keys and such. We also have a marketplace which allows the sale of PSN accounts, Xbox Live gamertags, adult website accounts, and even the trading of crypto-currency!

I also have custom VIP user groups that take relatively small donations but they aren't ready yet. I have a lot of ideas for The Pirate Cove, but I'm also open to any suggestions or ideas as well. I don't have a lot of content on it yet but take a look around anyway and tell me what you think!

Thanks for the forum! Hope you get big!
Just joined with the user name "Money"

Looks pretty decent, and it definitely has a catchy name.

Good luck, OP!

Edit: Just registered with the username Invictus. ?

Too bad the v in "Cove" looks like a b.

TyrantKingBen - January 5, 2015, 3:27 am

Site looks very well designed. I might suggest like a very light gray or something in the background. I think it would make everything look a little better. Either way, good job and best of luck.

This was my initial thought when I saw the banner.

Explain to me what GCs are and I'll add them to the marketplace if they're ok

Yeah thats what everyone who has seen the logo said lol. I'm probably going to fix that later, but I'm using the same font as The Pirate Bay logo and there isn't a lot of old english fonts that look cool.

GC = Gift Card

Narcan - January 5, 2015, 11:59 am

Has potential. Good luck with everything OP!

There is a lot of fraud of gift cards, but I allowed the sales of a lot of things. So yes, I'll allow it. But any fraud claims will be taken seriously.

There's a lot of potential here, but you really need to work on the site.

In my opinion, the theme needs a lot of work, the boards need a lot of work, and the structure itself needs work.

I hope you keep with it. You've almost inspired me to come out of retirement and rejoin the forum industry.

Thanks for the ideas! I'm still working on it while I have time but its been a lot of trial and error since its my first forum. I've changed the theme since then to a more modern look but I'm still deciding on the structure of it.
