How does these mods work?

I am new to those vapor thingys and I have a eGo T?

How do you install those mods?

Mac Mill?r - January 5, 2015, 12:29 am

Spoilers please and um is the candy included?

Hey this guy's youtube channel will tell you all about the mods & how to install them :).

<https://www.youtube.com/user/RiPTrippers/videos>

With these you will have to build your coils and thats the main thing. Not very hard and kind of fun in my opinion.

*Fixed

If you want the candy can be included ;)

Will the mods work for my eGo T? :P

I am new to this.

I am new to this.

The eGo T is like a pen right?

What this raffle is for is for the hades mod and the tugboat RDA.

These will probably not work with the eGo T.

However the two things in the listing do go together. These mods are epic.

Do You Want To Bet - January 5, 2015, 12:56 pm

the tug boat will work on it just there is no point in using an rda on a variable voltage mod. You wont be able to go below a certain resistance i think its like 1 ohm or 1.2 something around there. Only reason to use a voltage mod with an rda is if you have a lot of power and can vape it at like 30 watts

I see ^

Raffle still going on! Get in your spots!

+Wolf - January 6, 2015, 5:38 pm

I don't see why this is allowed. For all we know you can be using this money & making one of your friends a winner. ?

I'm not mate. I'm going to be doing a live video of picking the winner at random. I'm hosting this also on a facebook group.

Still doesn't matter. A raffle is different than a contest & shouldn't be allowed. I'm not hating on you but that is just my two cents. ?

Well I asked before if it was allowed and everyone said it probably is. And that this would be the appropriate section.
