Thread: [\[TUT\] ***Facebook's Graph search abuse + Seeing pictures of blocked profiles! UPDATED](#)

TheNakedEmperor - January 5, 2015, 11:32 am

Taking advantage of Facebook's Graph search -

Seeing blocked profiles pictures:

Spoiler [\(Click to View\)](#)

Step 1 - Find the profile you seek to find photos of

step 2 - look at the url :

step 3 - change the url to

step 4 - go to the url and copy the Facebook ID:

step 5 - change the url to

https://www.facebook.com/search/*facebook id*/photos-of

so in our case <https://www.facebook.com/search/100005153045284/photos-of>

result:

You may change the end of the url where it says "Photos-of" to "Photos-by" based on your preferences

Finding people via phone number!

Spoiler [\(Click to View\)](#)

In advance, you can also find people's profiles using their phone numbers in the search bar!

good luck?

EDIT: 1.8.15 - some more options! (yay)

To see who likes whose pictures:

Spoiler [\(Click to View\)](#)

type in the search bar : "X's photos liked by Y"

Finding Facebook profile via image

Spoiler ([Click to View](#))

It's pretty common but if you don't know it, it could be helpful for you.

Other than reverse search of images through google that sometimes leads you to the image source, this method is for facebook pictures only

step 1 - find the image you would like to find the profile of

step 2 - take the link of the image, it would usually look like

as you can see the link is long but it will always have the same structure only with different numbers, the numbers will always look like **** _ **** _ ****

in our case :

what we want is the numbers in the middle.

so we copy them (598397_506170199405174_520498533)

and we paste them after facebook's url:

<https://www.facebook.com/506170199405174>

it will lead us to the profile that the photo was taken from

The method DOESN'T always work but definitely worth the shot

Some more options:

Photos tagged by x

photos taken at "insert place"

photos of siblings of x

photos of girls who are under 23 and live in x

people who work at x and are named y

©TheNakedEmperor

ubnt123 - January 5, 2015, 12:55 pm

i will try it now and will back later,thanks

pettanko - January 5, 2015, 12:57 pm

Thanks for this guide, it might be useful :3

Corwin - January 5, 2015, 12:58 pm

Going to test this later when I get the chance, thanks man.

Deany - January 5, 2015, 1:00 pm

Lol it worked. Time to stalk some people. ?

ubnt123 - January 5, 2015, 1:04 pm

thanks its worked

its look like the method showing the photo which the person tagged in not the his own uploaded ryt?and what you mean by putting phone numbers in search bar i tried on my self used my phone number instead of the ID but showed error

TheNakedEmperor - January 5, 2015, 1:43 pm

(Jan 5, 2015 02:04 PM)ubnt123 Wrote: [\[CITE\]](#) thanks its worked

You're suppost to put it in the search bar () not the url

Also, in order for it to work, your phone has to be linked to facebook somehow (e.g when you download facebook's app to your phone a link is being made)

ubnt123 - January 5, 2015, 1:50 pm

hmmm thanks for the explaining i know this like when you search using a phone number though u mean showing photos via phone number

in case the person made the photo showing (only by me) its will not appear using the method above?

King Ragnar - January 5, 2015, 1:54 pm

Thank you for sharing, i tested it and it worked like a charm.

Willful - January 5, 2015, 2:46 pm

This is definitely an interesting way to see photos. When you said blocked, I thought you meant someone who has blocked the person attempting to do this, but after trying it out, I realized it's for people who you have not friends with.

TheNakedEmperor - January 5, 2015, 2:51 pm

You're right, the title is a bit baffling.. I'll change it to be more explicit

Bumper Jumper - January 5, 2015, 5:58 pm

Looks like a really cool method, might try it out some time. Thanks!

Sirbobo - January 6, 2015, 3:43 am

Thank you for sharing.. This is useful.. Works perfectly!! :)

Micki - January 6, 2015, 4:31 am

I wonder if it will work with other things like seeing their profile. This method is great thanks for sharing

?Genocide(X) - January 6, 2015, 4:33 am

Nice info there bud Thanks alot for sharing.

asap rockyyy - January 6, 2015, 4:47 am

Works perfectly fine for me. Doesn't show all the pics though.

mmuzammil - January 6, 2015, 8:39 am

It works alright it doesnt show all the pictures

But thanks:D

Zakarum - January 6, 2015, 8:42 am

Thank you. Will try this when I'll get on my PC.

azag - January 6, 2015, 8:45 am

Or just install the extension Picturebook available on google chrome .

Plague - January 6, 2015, 8:48 am

Thanks for sharing this man. Will be of use.

Manny - January 6, 2015, 9:04 am

Wow thanks op. Now I just got back my old FB accounts. :P

TheNakedEmperor - January 6, 2015, 9:43 am

I'm glad to see all the supproting comments and wish you luck with my method :)

Michael J. Scofield - January 6, 2015, 3:28 pm

Thank you OP!!

Did work for me like a charm!

Ohh and by the way this doesn't work if someone blocked you on FaceBook.

multiplex - January 6, 2015, 6:45 pm

It works...just tried. Thanks bro,appreciate ;)

dastyrus - January 6, 2015, 7:18 pm

Interesting, Nice way to see photos from people your not friends with.

CPACA - January 6, 2015, 10:50 pm

Worked like charm. Thanks for sharing!

Shaggy - January 6, 2015, 11:12 pm

Thanks for sharing! Just found a bug out hidden out of it

Speaker??? Knockerz - January 6, 2015, 11:15 pm

Nice tut OP. Bookmarking for later lol.

?

420 Blaze It - January 6, 2015, 11:17 pm

Kind of interesting, but this is kind of good OP!

WeakSystem - January 6, 2015, 11:19 pm

Wow thanks for the tutorial, are you the guy who find it?

overtake - January 6, 2015, 11:34 pm

"Photos of Firstname Lastname" or "Photos by Firstname Lastname" in the facebook searchbox will get you the same result op. It's better than doing all these drama. Thank you tho for the tutorial.

TheNakedEmperor - January 7, 2015, 1:21 am

I know you can do it like that, but some people have similiar names and it would take you a lot of time to browse them until you get the one you want.. but yeah, it works too ?

Montane - January 7, 2015, 1:25 am

Very nice tutorial. Thank you for posting this.

127.0.0.X - January 7, 2015, 2:46 am

wow thanx for share tested this now and it work great
time to go and enter some random number to see what i get
?

ubnt123 - January 7, 2015, 2:55 am

(Jan 7, 2015 12:34 AM)overtake Wrote: [\[CITE\]](#) "Photos of Firstname Lastname" or "Photos by Firstname Lastname" in the facebook searchbox will get you the same result op. It's better than doing all these drama. Thank you tho for the tutorial.
you stupid search bar is shit will not show the person you look for

overtake - January 7, 2015, 3:17 am

(Jan 7, 2015 03:55 AM)ubnt123 Wrote: [\[CITE\]](#) you stupid search bar is shit will not show the person you look for
I bet you didnt even bother to try what I said. Anyway you must be in a bad mood.

Buffy Summers - January 7, 2015, 3:24 am

Woah! Thanks a bunch. I needed something like this.

Regret - January 7, 2015, 3:26 am

(Jan 7, 2015 12:34 AM)overtake Wrote: [\[CITE\]](#) "Photos of Firstname Lastname" or "Photos by Firstname Lastname" in the facebook searchbox will get you the same result op. It's better than doing all these drama. Thank you tho for the tutorial.
Lmao.

Anyway gj OP, how did you find out?

SKAIIIEE - January 7, 2015, 5:20 am

nice tutorial

arizbones - January 7, 2015, 11:12 am

I cant see the images on the step by step tutorial. Why?!

TheNakedEmperor - January 7, 2015, 1:11 pm

(Jan 7, 2015 12:12 PM)arizbones Wrote: [\[CITE\]](#) I cant see the images on the step by step tutorial. Why?! Sounds like a problem on your end, try opening the image's url manually.

roleeswagger - January 7, 2015, 3:08 pm

i can't see images... i get "message": "A user access token is required to request this resource.", i think you still need a token

Hecariminalou - January 7, 2015, 4:00 pm

Hi guys! I had this search bar on Facebook where i could put some queries like 'Females who are 20' for example. But with the new update of search bar, a friend still has it, but i don't.. Do you have any tips how can I use that.

Thank you!

TheNakedEmperor - January 7, 2015, 4:05 pm

works for me.. ?

milan - January 8, 2015, 4:33 am

Thank you for sharing,worked like a charm.

Areksus - January 8, 2015, 6:06 am

Its really working!
THX man!
i'm wait for more

alderwin - January 8, 2015, 8:30 am

works perfectly. Thank you.

Is there anyway to see who has liked the pictures too?

Cheers

TheNakedEmperor - January 8, 2015, 8:42 am

(Jan 8, 2015 09:30 AM)alderwin Wrote: [\[CITE\]](#) works perfectly. Thank you.

CheersYes, type in the search bar : "X's photos liked by Y"

have fun!

alderwin - January 8, 2015, 8:56 am

youre a genius and have made me very relieved with what ive just found. thank you so much

dont suppose you can see who has private messaged who can you? or is that another ball game all together?

TheNakedEmperor - January 8, 2015, 8:58 am

(Jan 8, 2015 09:56 AM)alderwin Wrote: [\[CITE\]](#) youre a genius and have made me very relieved with what ive just found. thank you so much

alderwin - January 8, 2015, 9:00 am

(Jan 8, 2015 09:58 AM)TheNakedEmperor Wrote: [\[CITE\]](#) Nah, private messages are meant to be private ? of course ;)

Thanks again for this. Youve literally made my day

Hecariminalou - January 8, 2015, 3:16 pm

(Jan 7, 2015 05:05 PM)TheNakedEmperor Wrote: [\[CITE\]](#) works for me.. ?Do you have the American

(US) version?

alderwin - January 9, 2015, 3:01 am

Ive just noticed, the pictures that are liked are public anyway. Is there anyway to see pictures liked that arent public?

EvilMorty - January 9, 2015, 12:19 pm

This is freaking awesome!! :D I can now officially stalk the dumb bitches of FB and steal their photos. :P (im kidding)

silentb0b - January 9, 2015, 1:37 pm

That picture search is very useful for creeps like me. Thanks for the tutorial!

Ombree - January 9, 2015, 7:56 pm

thanks for this works really well, great tut

kaotik2003 - January 11, 2015, 5:37 am

Amazing tutorial. Thanks, it works great hehe

bernardbear - January 13, 2015, 3:04 am

- Finding source via Image - , Best option to find someone Information about social Media :)
BTW

Nice post "TheNakedEmperor" :) Thanks For Sharing .

c0mm4nd_pr0mp7 - January 13, 2015, 5:25 am

Thanks for the guide, very useful!!!

ISO - January 13, 2015, 5:50 am

Definitly a useful trick to see hidden photos , thanks :D

TheNakedEmperor - January 15, 2015, 6:57 am

(Jan 13, 2015 06:50 AM)ISO Wrote: [\[CITE\]](#) Definitly a useful trick to see hidden photos , thanks :D
No prob, I'll see if I can post more tut you guys would like

idaez - January 16, 2015, 3:04 am

working perfectly fine!
thanks mate

Comedic - January 16, 2015, 12:50 pm

Not bad, this'll come handy for snooping purposes. huehuehue

nikosjohnson - January 18, 2015, 9:31 am

thanks for the tutorial man, it obviously works.

Fudster - January 18, 2015, 9:33 am

This is pretty awesome, is there a way to see status?

fededido - January 20, 2015, 12:48 am

THANK u very much!!! work fine for me!

xXxTheArtistxXx1 - January 20, 2015, 7:35 am

amazing tricks man thank you for sharing it !

a.playcard - January 21, 2015, 7:54 am

you are a life saver :D i love u :D damn , this was good :D thanks mate

ocat - January 21, 2015, 8:42 pm

gonna try this one, thanks alot for your contribution

NervyGunSage - January 21, 2015, 8:47 pm

Is it weird to have gotten a boner from these pics lulz? lmao works perfect ;-)

TheNakedEmperor - January 22, 2015, 4:40 am

(Jan 21, 2015 09:47 PM)NervyPooh Wrote: [\[CITE\]](#) Is it weird to have gotten a boner from these pics lulz? lmao works perfect ;-)

Lmao I just searched a random name and surname
