Wow, this theme is amazing ! :D Love the tabcontrol

+Haze - January 5, 2015, 1:18 pm

I agree with Only3. Remove the lines in the tab control. And this theme would be solid. Nice theme though.

AnonymousIsUnknown - January 5, 2015, 2:17 pm

Very Nice, I agree with them, Without the lines on the tab control it would look even better.

Can't wait for updated releases of this :D

SIM-1456245 - January 5, 2015, 5:44 pm

Fucking shit. This is one of the most professional themes I have seen around. Well done, well done. Keep it up.

WeakSystem - January 5, 2015, 7:10 pm

oRequiem - January 5, 2015, 9:05 pm

I will be using this for future projects, thank you very much and I love this! ?

Hiiro - January 5, 2015, 9:19 pm

I think it would look nicer if you inverted the tab control selected item icon to white. :P

SaketSaket - January 5, 2015, 9:24 pm

Awesome looking theme.. Would love to see more controls ;)

GenericSkid - January 5, 2015, 11:23 pm

Am I a heathen for liking the lines?

If you must remove them, make the selected tab's section rounded.

If you must remove them, make the selected tab's section rounded. I like the lines but it would be nice if you selected the item the selection color would be the same as the line adjacent.

Visual Freedom - January 6, 2015, 1:13 am

Yes very clean interface. I would love to see more controls of that.

Marwix - January 6, 2015, 2:02 am

I really like the layout of your theme. Good work!

I hope you can add more controls to it soon.

420 Blaze It - January 6, 2015, 2:05 am

It's great, but then the black doesn't fit where the words WebAppPro is, it should a light gray.

Ashlanfox - January 6, 2015, 8:12 am

I heard your tips and did as you asked, even if I find it less prettier than before. I added properties to enable/disable lines and colors.

Illusionisten - January 8, 2015, 1:47 am

Like the tabcontrol idea but if you're first going to use that rainbow color-system you might as well change the color on selected icon to the same color marked on the left side of it.

ZeekoSec - January 8, 2015, 10:08 am
