(Dec 22, 2014 11:41 AM)Doing it Wrote: [\[CITE\]](#) I received a trial vouch copy of this product and I am thoroughly impressed with the software. It works well bringing in lots of dislikes. Very easy to setup and get running and although I haven't tested the flag option I have no concern over it. Definitely a good buy to scare off any competition or if you just want to laugh as your friend gets disliked into oblivion >:D

Looks pretty interesting. Vouch for this bot.

Also OP how many flags does it take to actually take down a video?

Depend on video and it's uploader. If you try to get down some new music video with a few millions views then you'll need a lot flags, really it depend on video, it could even 1 flag get it down but sometimes it will need 10 or more.

Still selling.. PM me or post here if you have any questions.

No, it doesn't come with accounts. I'm sure you can find some sellers here on HF.

I know a few people on other forums, but i don't want to advertise them for free.

New update was released. YouTube like feature added.

RickAstley - January 11, 2015, 7:49 am

Does this come with any accounts? Maybe an account creator? Cracker?

If not, I don't think I am intarested. If you can provide enough accounts to down a video, I will for sure buy.

This , it's literally impossible to get youtube accounts in bulk these days , 95% of them require phone verification.

I even developed my own account creator and found out the hard way multiple times..

So what's even the point of having this?

Wireless Network - January 11, 2015, 8:29 am

You can find people who send bulk accounts which are phone verified.

Or you can make your own accounts. Buy a few sim cards and verified them by yourself.

Can you provide a small list of bulk accounts? Maybe provide us with a provider of these bulk accounts?

GramHQ - January 11, 2015, 8:31 am

OP, could you PM me some of these account sellers? If they're legit, I will buy this bot. Otherwise, there is no point since there is no accounts.

I second this.

Without accounts, this is worthless.

No, as i said before, i don't want to advertise anyone for free.

I offered one guy partnership but he declined, and now why would i advertise him for nothing?

And about small list of bulk accounts: small list for you, small list for other buyer and for other, and so on, and it's not small anymore.

I can give all my buyers same small list if you mean on that?, but what's the point of that? If you all use same accounts they will get banned fast.

I would be willing to pay an extra \$15 for 100-500 accounts or so.

I think that is a good way to do it.

small as in 100-150 accounts

You can find sellers here on HF or even on google. I'm not selling accounts.

If i would give small bulk accounts with bot, i would buy them from these sellers but also price of bot would be higher.

In my whole year spent at HF, I have yet to see 1 person selling bulk youtube accounts. As for your program, could you make a video showing that it works?

Also, you're not losing anything from 'advertising' the sellers that you know of. You're actually losing sales by declining to link us a place to buy accounts.

Agreed. I am not going to purchase this product.

It is not that complicated, I could probably make it myself.

Hi Wireless Network,

I totally agree with the previous posts. I'm interested in checking out this tool, but no supply of accounts makes it worthless. You providing link(s) to where people can buy YouTube accounts is essential to sales of your product. This is your choice of course, but I wanted to give you my opinion, and professional advice.

GLWS sir.

Written - February 15, 2015, 11:01 pm

Are all the features working in the product?

I might be interested in in purchasing this soon

enzostrato - April 17, 2015, 12:29 pm

Im interested on this product.

Can you PM with Paypal email to send the money?

Also, I would like to know if you can sell me YT accounts too? Or if you have YT accounts let me know if I can use them or charge me for taking down videos individually.

PM for more info.
