Starting Jan 13th you can get a FREE 7 day trial of the new "PlayStation Now" subscription service.

The subscription offers unlimited access to more than 100 PlayStation 3 games from publishers like SCE Worldwide, Sega, Warner Brothers and Bandai Namco.

The service allows gamers to stream PS3 titles without the need to download, install or patch the game. Game sessions can be saved on PlayStation Now's cloud servers. As the service expands to other devices, users will be able to access supported games across any supported device with a single subscription.

After your free trial you can get All-you-can play subscriptions for \$20 a month and \$45 for three months.

Great time to own a PS4!
