Thread: [\[2017 New Flavors\] Who Soup 's Hawaiian Lilikoi Butter \(passion fruit butter\)](#)

Who Soup - January 6, 2015, 2:28 pm

2017 we're open until further notice!

Note: This image is not of our product.

Hey guys, after anticipated release I will now be producing "lilikoi butter" or otherwise known as "passion fruit butter".

This butter goes great on toast in the morning and has a very fruity, almost citrus taste to it mixed in with the cool creaminess of butter. I personally can go through a 12 oz jar in a day with just a spoon. This is one of my favorite products personally.

This product takes a LOT to get from us to you. We start our journey early in the morning hiking into the mountains of Hawaii where each lilikoi is hand picked and inspected for quality; If there is any flaws with the fruit we do not use it. We then hike it back down the mountain and strain the thousands of seeds and pulp that is with in the fruit so we only have pure lilikoi juice extract. We then use whole organic milk to produce our fresh butter; We believe that fresh butter lifts the taste of the passion fruit and tastes a lot better than store bought butter. We then add in our passion fruit extract as well as other ingredients to produce lilikoi butter. It is then packaged and sent straight to your doorstep right out of Honolulu Hawaii. This recipe can't be found online as it was taught to me as a child by my grandmother; we believe that our lilikoi butter has the perfect balance of sweetness, tartness, and creaminess.

[?New?] Flavors:Lilikoi

Guava

8oz glass jar: \$10

Shipping to the states will be \$5.05 and in most cases will provide a tracking number via USPS.

Here is a kind of big update if you frequently purchase my products!

I may be bringing in my business partner to the forums (which I know and deal with frequently in real life) due to how busy I am with orders, school, and work.

I will let you know if we decide to go this route. If so he will provide a 24 hour customer service line for orders, issues, and tracking information.

He shares the same honest HQ characteristics as my self; He actually just got his Masters degree in business administration from a private university.

You can still come to me with questions or comments if needed.

Have a great day?

We are still perfecting the art of making Ulu chips which is why we haven't launched that product yet. Also shipping it in one piece is a costly challenge as its hard to prevent it from breaking though I'm extremely happy it got to you ok!

We also now grow our own lilikoi so we can provide you lilikoi products year round (also means not as much hiking ?). We will be updating the quality of ALL of our products that we offer. We are currently striving to get an FDA approval, hopefully you will see our products in stores near you!

Another big vouch for Who Soup! Eating some toast with Lilikoi butter as I type this. I've personally never had this before and I like to describe it as an exotic fruity taste for someone who's never tasted it. I've bought numerous products from Who Soup in the past, and wouldn't hesitate to buy again.

Tony Stark Sucks - April 16, 2015, 4:22 am

Do you have nutritional information such as calories and such for an 8oz jar?

Casads - April 17, 2015, 10:49 am

I just got my butter in the mail and I just tried it. It is to die for, delicious. When I run out i'll make sure to buy more ;). Big vouch

We currently aren't shipping out any of our food products due to an investigation with USPS as my packages have been getting stolen or damaged during shipping.

We hope to get back to business as soon as possible thank you for your interest in our product though

Crowley - May 16, 2015, 6:44 am

Yeap USPS is messing up for me too... It's USPS's fault the deliverers are not caring about the packages and put it somewhere they want they don't care...
