+Wolf - January 6, 2015, 8:24 pm

eWhoring Introduction Many on the forum do not know what eWhoring actually is until they do research. No eWhoring is not just pretending to being a female over the Internet & it's not all about the money. eWhoring is sexual manipulation as you are using human manipulation techniques to gain payments. Again eWhoring is not about the money as many individuals use this to actually build a conversation. This also is a social engineering technique which more likely to be used in chat rooms and IMs. Most members of the forum who have experience make hundreds daily, thousands weekly & hundreds of thousands on a year basis from using simple techniques which anyone on the forum can do. How are members of the forum gaining much money? Most members of the forum are using professional packs with tons of pictures which are taken from a phone instead of an HD camera & utilize all of the pictures to social engineer their victims into thinking they are talking to an actual female. Others use video clients to share live shows over Skype, Omegle and/or any other live video sharing website or application. How do we accept payments?

Amazon Gift Cards (Non refundable currency)

PayPal Money Laundering (One account to another)

Virtual Bank Transfers (Online virtual bank account)

Talking to Targets ? This question has been constantly asked around the community and you need social engineering and/or persuading skills in order to actually make a quick & easy sale. You can either build a conversation and/or come off quick & simple and proceed to mention that you are selling pictures, however that usually never works for most. What have you been doing? When communicating with the selected target I build a conversation for about ten or so minutes & then proceed to mention that I am selling pictures and only accepting AGC (Amazon Gift Cards) for example. Allowing a conversation to start will better your chances of making the sale as they will begin to like you & adore your personality to the point they'll do anything to make you feel good. Will you provide any conversations that you've done recently? Sure be more than glad to send me a message & I'll get back to you as soon as possible.

Want to be Mentored? ?

A service for the forum is currently being offered & be sold to the members. As this isn't a sales thread purchasing information wouldn't be listed. However the only accepted payment methods will be Bitcoin and AGC. Why are these the only payment methods? This allows us to assure that no refunds will be made on the service & wouldn't end up resulting in a scam report which will better the service for us & the mentoring for yourself. From mentoring you'll be receiving updated trafficking websites, applications directly on the messenger and/or bluestacks itself on a weekly basis. How are we going to receive these trafficking applications & websites? Each buyer will be added over Skype and/or we'll be able to talk via private messages over Hackforums.net. You'll learn many other teachings within relation to payments, conversations & the art of human/sexual manipulation.

Actually, I am in fact not mentally retarded, and that is very mean.
Nor am I a "multi-accounter."

You, however, are a scammer, deceiver, liar, and a greedy man.

Right, because clearly i'm the one who:

1) has -rep

2) tries to get freebies by conveniently giving a '\$5' bullshit tip.

The -3 is because of +Wolf, who was clearly sad about the scam report.

I am not trying to get freebies I was trying to get what I paid for. And the tip was because I only had a \$25 gc, not a \$20 one so I couldn't take \$5 off.

Can you stop replying on this thread? You've just opened a false scam report. And everyone even took my side. You haven't been scammed. You broke the terms of service by opening a scam report without being scammed. I denied your access to the book. Very sad to see we have all of these new members coming to the forum with this attitude & unprofessionalism. Go back to where you came from & please at all costs do not come back at any time.
