Hello Guys,

I made a web app for a school project.

Check a preview here:

Now I need to make an A5 2 pages flyer.

I was looking for some kind of nice template. Or any of you guys just willing to help me. I need to make it in InDesign.

You can also PM me if you want to help or anything.

Thanks in Advance!

Here some extra info, color codes and logos stuff.

I don't need the whole folder.. I was atleast looking for a template.

There are a lot of thread and signature templates on here for free

There's a difference between a custom flyer template to a thread design.

Well, I can edit a thread design until it's how I want it.

Same with the flyer, just a nice template thing to edit.
