The work is done. You've got your summary of your desired chapter. Moreover, your second summary cannot be done without any provided information.

So if you added me, you could say even hi or something.

For real, people, if you add, ask what you want, not even just added.

How much do you charge for each article? I'm planning to start another blog, so that means I might need 20-40 articles (at least 1 article per day) for the SEO, just a minimum of 350 words per article, I'll probably just give you an article and rewrite it (SEO friendly of course). Hit me up a PM if you have a good offer.

Add me on skype, we can talk about this. Prices will not be given till everything normalize.
