Have ya'll ever seen Wolf of Wall Street?

It is such a great movie, there are some parts that are un-realistic but other than that, it is a great movie.

Watched it 3 times already, this is my favorite part.

I've seen it and it's ok. Some parts are funny, but some are just kind of like "what was the producer thinking here". Overall, it's good, but I guess it's just not my type of movie.

I thought it wasn't too bad was enjoyable in a couple parts overall i'd give it a 7/10 personally.

It is Indeed a very good movie :) One of my favorites actually.

Great movie IMO, though if it's not your type of movie I could see you disliking it.

Kind of exaggerates cocaine though... It's not like it's an amazing drug...

My favorite part is the Cerebral Palsy scene, pretty much laughed my way through the whole movie.
:D

It's still interesting once you realize it's based on a true story. It's sad to think that the guy it's based off of was giving 50% of his cut to the people he screwed over. I read that he gave away 100% of his cut because the people were not happy with him giving away 50%. That's crappy, yeah he screwed over people but he's obviously working to make it right.

have you ever seen Cast Away? That just came to Netflix as well. A great movie but there has probably been a thread on it. Use the search button, Wolf of Wall Street is old and has been many threads since its Netflix release date.

I wonder if parts of it were to try to attract even more people to see it by making an outrageous movie to get people to talk more about it.

Great movie.. Highly recommended. :)

Mork - January 12, 2015, 5:57 pm

Watched it a year ago when it first came out. I kind of want to rewatch it again.

Read his book "Catching The Wolf of Wolf Street". It actually talks about his childhood, first business experiences and some funny moments throughout his life. The movie is mainly made for entertainment purposes hence why it's just about women, drugs and the stock market (Without actually explaining what he did in the stock market).

Watched it 4 times. I have to say the when he takes the lemon and then gets home is by far the best bit :D 10/10

One of the worst movies I have ever seen in my life.

The Dragon of the West - January 13, 2015, 7:32 pm

Loved the movie should buy on blu-Ray soon.

It's my favorite movie. It's hilarious, has good actors, has hot girls with porn scenes, and is about money. I literally do not see how you could've had a better movie.
