Thread: [\[MFI\] - Mahdy's Forum Installation Services! All forums | Great prices! | \[HOT!\]](#)

Mahdy - January 11, 2015, 7:01 pm

I am reopening my forum installation services. I have been working with forums since about 2008 and have known my way around then since, as well. Since 2008, I started installing (for fun) vBulletin softwares, and then, eventually, using different softwares. To see a live demo of my work, go to:

<http://www.lost-dynasty.org/>

[IMG]<http://i.minus.com/icQgFOXwEU9Tj.png>[/IMG]

If you would like a logo & userbars to go with your forum, I will kindly do it (Giving you the .PSD and free changes) for an extra \$20-\$25, depending on how much of the information (userbars, etc) you need. Payment methods are as mentioned above.

Mahdy - January 15, 2015, 8:43 pm

Having a special deal for my first 5 customers: 25% off all services; package one or two. Take advantage of this opportunity, it won't last long!

FRANKIE - January 15, 2015, 8:45 pm

this is a really different and unique service and although I am unable to purchase it at this time I wish you the best of luck with sales

Thanks! I haven't seen services like this around.

I am doing 50% off on package 2, 25% off on package 1 for the first 3 customers. Please give this a chance.

This offer is still going if anyone needs their forums installed.

Vouch for Mahdy and his products or services! :3

Mahdy - February 12, 2015, 6:11 pm

Had to shut down for a few days to due my computer overheating and me having to replace my hdd, causing me to lose ALL my files. Online now and computer is running better than ever!

Mahdy - April 1, 2015, 9:54 pm

Thread is re opened and need to make sales. If you're wondering why I need people purchasing my eBooks/services, please click my signature.

Will not be a problem, please PM with all the information you need. Yes, I accept BTC and payment is always needed before the start of service. Please PM me on the package, the software you would like installed, and whatever the package grants you.

YOU MUST have hosting, domain and access to cpanel so I can install the files.

Comedic - April 2, 2015, 9:21 am

Vouch for my man Mahdy! Knows what he's doing and definitely won't let you down. ?

NoSuchAgency - April 3, 2015, 10:43 am

Not sure how anyone can't do this... If you can't setup a forum, you probably can't run it.

Mahdy - April 3, 2015, 3:16 pm

You'd be surprised the amount of people who do not know how to install forums. I'm just using what I know as a service to those who cannot do it themselves, or are too lazy to do it themselves.

Well, goodluck with sales. :) Though I do think it's a bit pricy, I'm sure it'll work fine.
