Thread: [Social Media and Email Cracking Service | Cracker4Hire | Cracking the code since 2010](#)

Damage Inc. - January 13, 2015, 12:49 am

Hi, my name is Slayer and I'm here to offer years of experience to those who require such services. I provide these services to those who perhaps lost access and not to those who want revenge or malicious activity of any kind.

-Account recovery-
Facebook, MySpace, Twitter, Meetme (formally myyearbook)

Email cracking will be the only type of cracking that I will provide.

Prices will be determined per job requested. All payments will be paid before, if for any reason I cannot complete a job, I will refund 80%. 20% for the amount of work and time required to gather information ect.

The more information you know before hand will greatly save time and provide a better chance of crack or recover.

PayPal from long term respected Ub3rs
BTC from everyone else

No, this isn't the ebook section.

Password cracking isn't a 10 minute process. It takes a few days.
