I have no clue what OP is trying to say, but I do think it's trying to communicate.

Sim sim salabim make it to the world ! !

Ammar_HF - January 14, 2015, 1:33 am

Hacking can make anything to the Cyber world and many stuffs to the real life world

Hacking is also used in war

Korea trains their soldiers to be hackers

TAKE DOWN AMERICA!

Apart from your bad english, I would say something that uncovered the level of censorship in the western media, like a list of gagging orders.

That would make interesting news. Alot of the Wikileaks stuff came from hacks though.

Peace
