Thread: [LG G3 LGLS885 root \(LG G3 Sprint Vigor\) root?](#)

Datguymon - January 14, 2015, 2:54 am

Can someone help me as to how to root this I have searched google all over and I cant find anything...

Webmasters - January 15, 2015, 8:07 am

I rooted my LG G3 (Sprint) with Towelroot. It worked flawlessly for me.

My device is not currently supported.

Datguymon - January 16, 2015, 11:38 pm

ing this help is appreciated!?

There are many variants of your phone. I don't know which one it is. Find here:

[LG G3 Compatibility Matrix](#)

Find your device model from the link above and the see Q3 here:

[\[FAQ\]\[HELP THREAD\] LG G3 | Ask any question | FAQ in first post \[Noob Friendly\]](#)

I guess this is for your model, have you tried this method?

[\[ROOT\] Root your LG-G3 easily with PurpleDrake-Lite! \[OSX/Linux/Windows!\]](#)
