For views orders are tracked via the current view count the video has, since tracking them based on the traffic we send to the videos produces inconsistent results.

incase anyone wants to track them

Soundcloud plays delivered super fast. appreciate it man, still waiting on the "Real" active followers now.

A day later and I only got my soundcloud plays. None of the "real, active" followers yet.

Vouch for smmb0ss services. Absolutely perfect apart from the drip feed feature. I asked for 100 in 24 hours, drip fed. After 24 hours they all came in at the same time. That could just be a bug though. Deffo worth the purchase.

Though it appears you misunderstood how my dripfeed feature works. If you select "24" hours, it means every 24 hours you will receive the set number of followers you requested, not that you will receive them gradually throughout 24 hours.

Hey HackForums!

It has been almost 10 years since I last posted in this thread, so it feels good to finally bring it back to life.

YTbot has changed a lot during that time. Rather than relying on Perfect Panel or another public third-party script, the platform has been custom coded from the ground up. This gives us much more control over order tracking, service speeds, drop rates, refill performance and real-time issue detection.

Our goal is simple: fewer surprises, more honest data and services you can choose with confidence.

Services marked "Best" are reviewed by our hybrid human and AI quality-control system, helping members avoid scrolling through hundreds of nearly identical options just to find something dependable.

We also provide genuine refill warranties on eligible services. Because we track service health and drops properly, we can identify problems early and offer real refills or refunds where applicable, not just an endless refill button with no result.

To celebrate the return of the thread, HackForums members can use:

ytbot.com/?discount=HF-2026

I'll be active here again to answer questions, provide recommendations and listen to feedback. Whether you used YTbot years ago or are discovering us for the first time, welcome to the thread!

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
