Thread: [Looking for decrypter for MD5Unix and IPB \(md5\)](#)

maybeurs - January 16, 2015, 11:38 pm

Hello, I just recently got some databases and I'd need someone who can help me decrypt hashes all of them MD5UNIX (over 600hashes) and IPBoard (over 50k hashes)

I'll just post some of them here, to see if you can maybe handle them.

MD5Unix hashes :

```
$P$Bf7U1Wqw0cJfOYEvT/tNXSOWtu98u2/  
$P$BPaeHT6X386FdBzjBcEjRygx8E5i6h.  
$P$Bf1Ky9v.yheLeQBTvpJ.ntyRMZk2CD0  
$P$BtQ/BMzHNOwJlu3NNHZOaKchJnh3dL.  
$P$Bcoi2K7kZye61QRkCawtA0IZ6GEizh1
```

IPBoard hashes :

```
'b7df78a4a4a08f3949160cd25fc1c2d4', '4ykpl', (md5;salt)  
'2f517ae261ed9996ae59428d15d557e8', '8M5`U', (md5;salt)  
'3533b23fd526842bb1c75ae363a83e41', 'RiK-f', (md5;salt)  
'2f9d52b17614c6016f9969b08662b504', 'e,b~3', (md5;salt)
```

If u can decrypt any of them or knows a way how to do it, please reply on this

THanks

Forezza - January 17, 2015, 1:54 am

Send me both of the lists and I'll try see what I can do. Other people that would be happy to help would include:

w34k
chick3nman
Saint

Those ones there:

```
2f9d52b17614c6016f9969b08662b504:e,b~3:6543217  
3533b23fd526842bb1c75ae363a83e41:RiK-f:police  
$P$Bcoi2K7kZye61QRkCawtA0IZ6GEizh1:1150
```

The others are still running as I did a quick as run on both of them when typing this message up.

w34k - January 17, 2015, 2:13 am

```
2f517ae261ed9996ae59428d15d557e8:8M5`U:123456  
b7df78a4a4a08f3949160cd25fc1c2d4:4ykpl:123mnb
```

I'll just wait for the list to run the others. I might be offline when you post OP, guess I'll just attempt whatever is left.

Haha, shit. I was wondering why I wasn't getting those last two. For some reason, it was excluding it due to it being in my pot but still running something :/.

Happens a lot to me too, I manually check my .pot file or run with the disable flag if hashes are getting excluded :P

maybeurs - January 17, 2015, 8:15 am

Well, I can really send pm's as long as I have not enough posts, just hit me up so I can reply on that.

For some reason, it was excluding it due to it being in my pot but still running something :/. Lol, damn. It should have stopped cracking if they're already in your pot. It will display how many hashes that were cracked already. I keep one main pot, then a fresh one for the current cracking process.

Generally if you have it in your .pot file it refuses to export the plain to your output file. I think there's a post about it on the hashcat Trac. It's not critical but I'm pretty sure they mentioned adding a force output flag or fixing it.

I'm sort of new to this when I need crypting help

mas.yono - January 18, 2015, 9:54 pm

i don't know how you guys do it,,and how many years to learning all this stuff...,i need help ,,i'll be thank if you guy's help me with this,,i try so many forum and online crack software,,desperated..lol;;(
