A vouch copy was given to myself.

In a short review, the eBook is helpful if you're new to stealing steam items. It helps guide you through your first items stolen. It also has a bypass for the new "Anti-Steal" (Captcha) by Steam.

Overall a very nice review. VERY in depth. Amazing help for new comers :)))
Good luck with sales bro!

Not sure when but
<https://hackforums.net/showthread.php?tid=4587405>

If it helps take items from another steam user without consent then it falls under the same rule.

TheJ?Ker - January 22, 2015, 2:18 pm

First of all it cannot bypass email verification lmao , that's impossible.
Also this is not allowed on HF.

problems.x - January 22, 2015, 2:19 pm

This is not allowed on HF, the discussion and use of steam stealers are not allowed here.

i CAN! - January 22, 2015, 5:33 pm

This is NOT STEAM STEALER. This is not s Builder. This is an Ebook.
YYou can get with it many stuff, not just steam items.
And yes, if its about Email verification of Steam (yes there is a way to do it)

Vouch, Just bought this, great tutorial, owner of Ebook extremely friends and supportive, the ebook its self is great.

EDIT: Struggled in actually setting up the RAT (I'm a huge fuckin noob), he literally called me and went on teamviewer and took the time to explain EVERY-SINGLE-LITTLE Step for me, the E-book and the owner are both great.
