Thread: [Internet disconnect symbol in corner but im connected to internet?](#)

?ă?ž?@ - January 17, 2015, 7:14 am

I have internet access but im seeing this icon in the lower right hand corner? It does this sometimes overnight i dont know why. The icon will just change even though i have interent.

NoScript - January 17, 2015, 11:13 am

This does the same thing for me just hover your mouse pointer over it and it should go away.

When there is a yellow exclamation mark on network icon there should be no internet connection but you said you have internet connection that's weird you should reinstall or install latest version of the network card driver.

It can be a lot of reasons.

It could be a DNS issue.

Have you tried plugging in the Ethernet cable directly to your modem to see if the problem is still there?
