Thread: [some android pro ver apps root+non root](#)

himanshu raj - January 17, 2015, 10:56 am

I have the collection of android apks pro tools with unlocker. Some require root and some not.

1. Super SU root permission granter full version with unlocker.

[supersU.apk](#)+[unlocker](#)

2. Facesniff to hijack fb sessions on same lan network guide to unlock

1. install FaceNiff.apk

@. run for first time click start wait 10 sec then stop it then close

@run the facesniff unlocker click unlock and note the serial key.

@open facesniff open menu then click unlock app and enter the key.
