Thread: [Improve your RAT spreading \[Free Auto Spreading Tool \(No Worm\)\] \[Get Sexy Slaves\]](#)

Root - January 17, 2015, 9:33 pm

Hi everyone I am Cyber Army

Today I am going to show you my simple and easy way of spreading a R.A.T and getting sexy girls with webcams ?

This is not e-whoring you don't have to make any accounts or put any personal info in any chat site.

Okay lets get started...

This method is fully Auto you don't have to lift a finger

You can even make the program run in the background and u can watch a movie or do homework etc ?

1. Visit this link [CLICK HERE](#)

2. Go down and download...

(If you don't know how u can download it from this direct link its the same as in the thread : [CLICK HERE](#)

3. Okay Now make a folder on your desktop call anything u want and extract the .rar file directly in the folder.

4. Now open the program it will look like this...

5. Okay Now Go on settings section where u see all the chats on right "User Settings" Right click on them and press "Remove All"

Then Click make shore the settings are the same as mine then press the plus button in User Settings and Add a chat like this....

Here is example of mine the timing is a bit fast but I will fix it later?

[img]http://s9.postimg.org/hzj9jqazz/Captureh.png[/img]

Add a link of the rat in on of the lines of test so the user will download it?

6. Now go on Browser section and add something in the "What Do You Want To Talk About" Textbox and press chat...

Here is a nice example to get sexy girls

[img]http://s9.postimg.org/hzj9jqazz/Captureh.png[/img]

7. Then go on Control Panel Section and And Press start...

[img]http://s14.postimg.org/tlkq50hdt/Captureh.png[/img]

8. Go back on the Setting Section and uncheck "Hide Web Browser When Active"

9.Go back to Browser section and watch your bot do the magic?

[img]http://s16.postimg.org/vj6utbn0l/Captureh.png[/img]

That's it everyone you can let the program running for a while maybe at night or something and people will download your rat with no problem?

This Is really easy and noob friendly

All The Credits of the program goes to [Yui Hirasawa](#) From HackForums

no offense but anyone using this method will get bots at A VERY SLOW rate and will be most likely a low quality slave

Root - January 17, 2015, 10:48 pm

Slow? na dude I got over 5 slaves in 10 min I don't think that is that slow

I don't understand why everyone loves this tool. It's great and all, but it's getting pretty dated and Omegle has captchas now that you need to sit by and watch for so you can solve them and this tool continues.

Looks like a nice tool, but Omegle is spammed nonstop with bots such as this. If you do manage to find an idiot he'll likely to have 50 other viruses sitting on his computer.

Root - March 19, 2015, 4:40 pm

yes but I use webcome spoofer as well with sexy girl on it xD? (Mar 19, 2015 10:18 AM)

Root - March 19, 2015, 10:13 pm

You are right on that but u can also make a spammer like that yourself if you know basic coding ?
