Cool share. Looks pretty useful :).

shawnw1104 - January 21, 2015, 2:09 pm

I glad to see some people are interested in this tool :P.

I have a new version available but the publisher is "busy" atm 0.0

New version has over 120 hashing algorithms, 5 check-sums and a ton of bugs fixed, new features.

Only if @Visual Freedom was'nt busy ;'(

Soon though, before weeks end it will be released V1.0.1.0

Visual Freedom - February 1, 2015, 5:57 am

An update released and supports now over 100 different algorithms.

iExport - February 1, 2015, 8:49 am

This will be so useful for some hashes. Thanks OP ;).

Visual Freedom - February 7, 2015, 4:24 am

@iExport thanks for your feedback

I hope for even more feedback.

BanthaTrax - February 7, 2015, 1:28 pm

Simple and easy is exactly what I'm looking for! Thanks for sharing.

Visual Freedom - February 8, 2015, 4:38 am

Thanks for your nice feedback BanthaTrax

Once again, very happy with the ammount of people using this tool.

As of right now, 8940 hashes have been identified.

A New version will be released within the week, if no bugs or issues are found.

ChangeLog is as followed:

[*] Whats new in version 1.2.1.0

[+] Bugs fixed

- Fixed a bug in the updating form where it was saying there was a new version, when there was not. (sorry)
- Fixed a bug in the handling of the algorithm viewer form.
- Fixed a bug when you did not click a item in the list on the main form to view the selected algorithms.

[+] Beta/Alpha

- Deep analyzer for hashes. (early stages of development. Works with some and other will detect nothing!) - Use at OWN risk!

[+] New Features

- Loading screen while you are importing hashes from a file.
- New Help form for error messages.
- Added cancel button to the update form.

[+] New Algorithms Supported

- PDF 1.1 - 1.3 (Acrobat 2 - 4)

-

[+] Small changes

- Changed the layout for the Load Hashes.
- Improved some of the Regex patterns so that they take less time to run.
- Made changed to the Configure_Regex_pattern form.
- Update form now shows the progress instead of a constant moving progressbar.
- We currently support 196 algorithms.
- Changed how error messages are shown.
- Updated the Credit form to include new sources.
- Included a new richtextbox that will speed up loading and appending text.
- Changed the look of the view detected algorithms form.

Since i have more time till its released, more may be added or tweaked.

If anyone wants any features added, ask me or Visual Freedom and it may be included.

Have an amazing day and cool day :D
