Thread: [\[NEW\] NET Programming Skype Group open to everyone !](#)

Increment - January 18, 2015, 2:03 pm

I'm starting a group because I feel like my programming experience in VB.NET and C# could be appreciated to some members, so feel free to post to apply if you are interested!

Some of the members are actually working on a Pokemon remake in NET, including me. If you are interested in contributing in the open-source project, simply apply !

What is the goal of this group ?

The group consists of people who want to increase their general programming knowledge in C# or VB.NET, this is not some sort of class, simply a bunch of beginner/intermediate programmers who help each others in their projects. Our goal is mainly based on helping each others with their problems/questions.

Requirements :

You must have 50+ posts.

You must have a positive reputation.

You must have been a member of HF for at least three weeks.

You must speak/type English fluent, because English would be the only language spoken in the group. Rules & policies of the group

Spamming/flaming/advertising and another other kind of abuse is not allowed on our group.

If you're inactive, you'll be kicked from the group. To apply, simple post on the thread using this application form.

Code [color=#FFD700]Why do you want to join:[/color]

[color=#FFD700]How long have you been coding in C#/VB.NET ?:[/color]

[color=#FFD700]What is your level (beginner,intermediate,advanced,expert):[/color]

[color=#FFD700]Which other languages do you know (if any):[/color]

[color=#FFD700]Anything else to add:[/color]

I'll review each applications and I will contact you if I think you could be a plus in the group.

Thanks you,

Increment

SL x TnT - October 27, 2015, 2:58 pm

We just recently kicked half the members (not active), so we're looking for more people to join. This

is mainly a .NET group, but we can also help with other languages, if you're not working on a .NET project at the time.

So far I've been in this chat for nearly 2 years. It's still active, so it's not a chat that will be dead in a month. It's so old that it's a P2P chat rather than the new cloud based chat for Skype groups.

Here are the message counts of the remaining 17 people for the last 3 months.

They even made me find these random statistics ...

Keep in mind this is not a black hat group.

We are still looking for fellow programmers !

L?YLE - March 2, 2016, 12:36 am

I'm now for around 1 year in this group, and I must say, I learned a lot new things, really. All are extremely friendly and helpful! I was in a lot coding groups, and I left them, becausd they were unfrienfly or just too low. Everyone that wants to learn .NET MUST join this group! You learn also C++ and other languages! Everything is presented!

This group is like a family for me!
