What do you mean by the theme I removed from public forum?

\$lick - January 19, 2015, 1:37 pm

Honest opinion? It sucks.

The colours are off and it just looks like a crappy re-skin of element.

Now THIS is exactly what I needed for a program I made about 8 months back... I am working on an update (version 2) of my program now though and I am going to switch out the current theme that I modded for this sweet piece of eye candy ;) Your themes are top-notch and I really do appreciate you taking the time to make them and then release them for us to use... great job on this one :)

I like your theme, but it does look similar to your other two. Think out side the box.

????Kosdff - July 7, 2016, 11:01 pm

Yes, that may be, but look at the similarities in your "Xylos" and "Reflection" Themes :P Great work OP!
