Thread: [Porn Star / Glamour Model Banking](#)

A quick free method for you guys.

1. Google for Pornstars / Glamour Models who don't currently have a twitter account. (freeones.com is good for that), save a bunch of photos and ideally find one that has a recorded webcam stream available to download to that someone has already recorded and posted online.

- Alternatively you can search for camshows first on porn tube sites and then just google the models name after to save pics that way you already know she has a recorded show.

2. Create a Twitter account in the name of the model and create a header image, Just something simple like her name, a photo of her and add a VERIFIED badge to it so people assume it's her real account.

3. Start tweeting with her name, follow other models/pornstars and of course tweet photos.

4. Followers will soon build up (I amassed 2000 followers in 3 days with a UK based obscure glamour model)

5. Next you want to monetize This is what I wrote.

- "Hey Guys!. As a special treat for you I am doing a group skype show tomorrow night!. £30 instead of £69.99. Email me at ****@gmail.com

Very short and simple. Within a few hours I already had 41 buyers of the show and finally ended up with 98 upon show launch time.

I had them buy me an Amazon Gift Card (Email type) and sold the codes on ebay. I find this a lot safer than paypal tbh.

6. This is where the recorded video comes into play. I told them in the email that it would be watching my show. No orders I'll do what I like and we can chat. They were all fine with that as to them they were getting personal with a model they LOVE.

Use manycam to load the fake webcam into skype. Press play and sit back chatting to the guys. (Remember to only type when the model is typing to or atleast has her hands off screen so it looks like she could be typing)

I sold the codes for £25 each on ebay (£5 less than face value but it helps them sell quicker and it's still £25 for doing not much at all)

Making a profit of £2450 in about 5 days total.

You can rinse and repeat or if the model you chose has multiple cam shows that have been recorded and put online then keep doing it until you run out.

If the model has a website feel free to pay for access and download her camshows since you now have money! :P

Thanks for this awesome share man! Very good method for some people who don't know the twitter method already.

Ishmel - January 19, 2015, 8:35 pm

God damn, your a genius. How do I get a "verified badge"?

Ashly - January 19, 2015, 8:37 pm

How do i add a VERFIED badge?

[Create a Twitter account in the name of the model and create a header image, Just something simple like her name, a photo of her and add a VERFIED badge to it so people assume it's her real account.]

I don't think that method is public, but it's being sold here somewhere on HF.

Sounds like something that could work, but as they asked above, how do you get a verified badge?

SpeedOfLight - January 19, 2015, 9:23 pm

I have to say I am impressed by this!

GhostFaceDoobie - January 19, 2015, 11:22 pm

this is a nice method thanks for sharing op

Thesse - January 20, 2015, 12:16 am

Wow, that sounds like dope method. Thank you op.

ownd - January 20, 2015, 12:21 am

Sounds like something that would work. good luck on who every try this :D

Heulen - January 20, 2015, 1:05 am

Very intelligent thinking.

However, Wouldn't the diehard fans already have seen that video that you stream and ask for their money back?

daziam - January 20, 2015, 1:25 am

Ok a few answers.

Q. How do I get a verified badge.

A. Answers already there. I state "make" a twitter header image. I typed "twitter verified" into google image search and saw plenty to add to my image.

Q. How do I create an image?

A. Photoshop, Gimp, paint etc

Q. Wont the die hard fans have seen the webcam already?

A. Possibly but there is a small percentage that would have. If anyone starts kicking up a fuss in skype chat you eject them from it and say something like "I hate trolls". Plus remember the tweet? It says selling skype shows. It didn't say "Live shows" ;)

@daziam This is fantastic! I will try it! :)

Hexius - January 20, 2015, 2:23 am

This is quite a clever idea I'll be trying it out later with a twist to it ;)

Effexion - January 20, 2015, 2:26 am

Not really a fan of ewhoring, but this method is clever shit.

DamienVC - January 20, 2015, 3:01 am

Wow, thats pretty much useful than those other useless eBooks out there

Kamex - January 20, 2015, 3:02 am

This actually sounds like a really good method/concept. I like it :)
