I think they would appreciate it as far as rules concern. If the scammer has been banned, there is no problem whatsoever.

Regarding proven scammers that are still active on HF, that would be something to consult with the staff team.

It would be a matter of reflection on restorative justice vs tradicional criminal justice.

Restorative justice is an approach to justice that focuses on the needs of the victims and the offenders, as well as the involved community, instead of satisfying abstract legal principles or punishing the offender. Traditional criminal justice sentence a formulation of rehabilitation, which is offender-centric.

I'll be sending you guys a message with the recruitment process. It's not something big, and we'll actually need people for 3 different purposes:

- [2x] Credit Providers (Skype);

These (2) people will be responsible to fund activities with skype credits or premium.

- [5x] Document Tracing & Account Access (Dox);

These (5) people will be responsible for doxing and accessing accounts. They will hijack everything possible to hijack and harvest every bit of information, including relatives (preferably contacts). Questioning family members works 10 times better than harrassing the scammer itself. It's an incredibly success multiplier.

- [3x] Contacters (Callers);

These (3) people are the vocal part of the job. You'll have to be good with words, and obviously you can't sound or be a child with a child's voice. You need to contact the scammer and the family members. You need to be a fairly good social engineer.

It's a fairly simple concept and it would be no more than a 10-man team. We need people to fund with skype credits/premium, people who will help on doxing and hijacking accounts and people who will pass judgement (harrass) by causing distress to the scammer.

Just pick one when recruiting, and I'll test you accordingly.

I would be interested in joining this, seems like an excellent idea. I am very thorough when I dox and have cracked many tough ones before and would definitely be up for helping.

I was scammed twice in the previous month and I guess I've learned my lesson - you gotta make people earn your trust.

Punishment of scamming is one thing but prevention is also important, don't have any ideas around that for now though.

The system on HF isn't trully efficient, it conditionally allows people to scam and go unpunished.

-Elusive- - January 22, 2015, 3:22 pm

I think there should definitely be some sort of an escrow system, but then you have to trust the escrow.

Trying to think up something along the lines of a trustless automated escrow but I don't think it's possible for all trades.

[Ego](#) will send a PM to the people interested. He will ask what's your interest in The Black Hand and what you're willing to do.

We need callers who are good with words and we need people willing to obtain information. To simplify it - callers and doxers.

Ego will also have responsibility to coordinate the group in the best way possible, so that everyone has a roll. By making sure we are a presence as a anti-scam movement, we'll try to decrease the scam-rate spree starting this year.

Lets grow The Black Hand into something memorable, and not a stand-alone, 1-guy movement, like it has secretly been for the past year.

It's actually originally from Serbia: [http://en.wikipedia.org/wiki/Black_Hand_\(Serbia\)](http://en.wikipedia.org/wiki/Black_Hand_(Serbia))

"The group encompassed a range of ideological outlooks, from conspiratorially-minded people to idealistic youths (...) The group was denounced as nihilist by the Austro-Hungarian press and compared to the Russian People's Will and the Chinese Assassination Corps."

"Nihilism is a philosophical doctrine that suggests the negation of one or more reputedly meaningful aspects of life."

We've successfully identified (3) past scammers with new accounts and we were able to partially get the funds back to (2) people from past scams.

I personally hope that we can provide more security and prosperity in the future. Because as TBH grows, so does our resources to fight and identify past and current scammers.

I am not one who usually goes online and writes reviews, especially for Internet services such as this. For this type of thing, and the people who came to my assistance, I really can't be thankful enough, really. So, without further ado, here goes:

My 'problem' started sometime yesterday (around 7 P.M.) and upon making my first post around 8:30ish, there were a lot of members here to help me. Needless to say, they were all were extremely helpful, consoled me through my issues, and really made me feel deserving. This is a line of work I one day see myself trying out, and these guys really just iced the cake for me -- words cannot describe the feeling of relief that flooded my body after seeing their work carried out in such a professional manner. The best part is that they didn't want a penny from me for their work. Whatever I gave monetarily I gave, but my debt is owed in gratitude, and I will forever be here to help out those who helped me. If there's one thing I learned from this is that a community is there for each of its members, and combining ideas/skill-sets not only brought us closer, but it also defended each other. Never have I felt so emotionally attached to any site or people in particular.

Anyhow, back to the people at hand. Their methods (though I can't really say what they are), were flawless. The amount of thought that went behind this was incredible. The execution: flawless. Communication: 10/10. Literally, I can't tell you how quick they were. These guys are the real deal. I'll say it again: they're the real deal. When I say go to them for your smallest needs, go to these guys. I never saw myself needing anything like this in a million years, but these guys came to my aid. For this I am forever in your debt, each and everyone of you.

There is one person I want to give a big shout out to:
regexks_

He really talked me through my darkest moments in life, somethings I couldn't approach my loved ones or in real life friends about. His generosity and willingness to help me, his connections, and the time he spent with me was just truly amazing. I can't appreciate it enough. I really can't. There's nothing out there that I can't ever give to him to pay back what he did for me. He is simply amazing. I felt like he was genuinely there for me, there to help me and that we were friends from the start. I

never really had such close friends in life (to be completely honest), and he really made my day/night/month/year whatever you want to call it. Truth be told, he'll be my idol for a very long time.

I want to extend my thanks to the entire group now. While I don't have access to your communications, I'm sure a lot of time was spent doing this, and your services rendered means a lot to me. I'm not such a wealthy person who can pay your time in money back to you so swiftly, but do know I WILL be back with whatever I can earn and will pay you for your services. Your time spent, your energy, everything --- it means a lot to me. I really can't express my gratitude enough.

For those of you who don't know what I am talking about, these guys saved me from death. Gangs were going to come after me. Gangs. These guys are the real deal. If you don't go with them, I don't know who else there is to go with out there who can match their skill level/experience. Thank you, thank you, thank you. Never have I slept more peacefully in my life.

You guys are awesome.

If you think you have what it takes, please PM me with an interesting write up about your doxing/calling experiences, and we can see where that leads us.

The Black Hand is not just a movement on a forum, it's a movement in the real world as well. We have helped users with problems that do not involve this forum, each one has been 100% satisfied with our work and we take pride in this percentage. Our work ethic and overall willingness to assist you, the user of this forum, will constantly remain top quality. We want members who can fit in with this mindset and who are good to work with as well. We are always watching and willing to help.

Regards.

Anyone interested as a caller should send me a PM and add me on Skype: regexks

I will be scouting for our next assets.

You aren't required to post on this thread if you're looking to preserve your anonymity as a caller. It's understandable, you are the voice of our organization.

I will be performing a voice interview and I will decide if you get to move on to the demonstrations.

Only people I see with potential get the chance to join as a caller to "learn". Although we appreciate the interest, we will have to deny any users with these intentions. We need people who can work now not in a few weeks.

I expect to meet some great people.

Tokyo ? - March 5, 2015, 7:18 am

I've already received 5 PMs for users that are interested. This is a good starting number but I'm sure there are more members on this forum that are proficient in doxing.

Please keep in mind that I will be scouting/consulting users that are interested in the doxing medium of this group, callers (as regex_ has stated) will be scouted and consulted by him. Make sure you are Private Messaging the correct users, thank you for showing an interest.

Hello. My name is Erik, and I'd like to apply for the Black Hand Group. I'm 15 years old, and I've been dealing justice to scammers for the past few months. Lately, however, I've grown tired of working alone, and would like to be part of a group that can work with me. I used to dox carelessly and for fun, but now I never exact punishment upon those who are undeserving. I feel as though I'd be a great addition to the crew because I'm quick thinking, sharp tongued, and have an eye for details that ordinary people might not take note of. I enjoy chatting with acquaintances and making new friends. I also feel as though I'd work even better in a group as compared to working alone, as I am good at bringing people together and organizing events. Overall, I think I'd make a great addition to your team, and I hope you'll consider having me be apart of your crew ?

Tokyo ? - April 13, 2015, 1:49 pm

I'm back for a bit... Recruitment is officially closed by Dubitus. However if you can prove to me you are EXCEPTIONAL. An exception can indeed be made.. But as of current this thread is just to talk about the group.

Regards ?

Dubitus™ - April 14, 2015, 5:03 pm

We might open up recruitment exceptionally for (1) spot. So keep updated.

Qwazz - April 14, 2015, 5:49 pm

huehuehue We are the white hands.

FantaŠec - April 14, 2015, 5:51 pm

Looks intriguing; personally, I have always wanted to assist in something like this, but if recruitment is closed I understand.

Otis???????????????? - April 15, 2015, 9:57 pm

I'm glad to see The Black Hand still running strong.

Dubitus™ - April 19, 2015, 10:40 am

We've officially opened our student program, [here](#).

J. Lewis - April 19, 2015, 2:15 pm

I suck balls at doxing, but this seems like a nice unofficial group with useful goals. Good luck with everything Dubitus.

Thornzzz - April 19, 2015, 7:40 pm

This is a great group. What they're doing is amazing and should be recognized. You guys are true heroes of HF.

Prince X - April 27, 2015, 5:38 pm

Hi dubitus will melty get doxed/harrass as the other scammers who get manhandled by the black hand?

There was no need to post on both threads. Melty was talked to and will be handed at dub's discretion.

Dubitus™ - April 29, 2015, 5:03 pm

Any group who sucessfully joins The Black Hand, will optionally join Null from now on. Just bear in mind that now the recruitment process is even more strict.

The Black Hand students will only be able to join The Black Hand and Null if they graduate.

Tokyo ? - May 1, 2015, 8:08 am

The Black Hand is currently ONLY looking for callers. You must be good at attaining and confirming information as well as not sound foolish but rather professional. Again, callers only. Doxers can apply for our student program.

Regards.

We're going to open for general recruitment once again. Please apply in this thread.

??????? - May 8, 2015, 3:44 pm

I'm interested in joining, but I don't think an application would be the best way to showcase my skills. Instead, I think if you give me whatever task you need done, I can show you that it will be completed in a timely fashion.

I'm very knowledge in gathering information on others and in the social engineering realm in general. If you're interested, please private message me.

Tokyo ? - May 10, 2015, 4:25 am

Our first challenge is up here: <https://hackforums.net/showthread.php?tid=4814779>

Please take note if you're interested in joining.

I want to join this program. I am a learner and I have time on my hands this month. You guys seem like a great team. Cheers.

@NEGRO - June 30, 2015, 7:43 pm

I want to apply to the Black Hand Program because I came onto HF to learn things and this seems like the best chance for me to learn about the subject with a group of peers. Seems like a well regime program.

But those IP's are not tracable since they lead to an office or w/e since it's dynamic. But the guy loves to switch aliases/skypes/jabber's and yahoo emails lol.

Biometric - July 17, 2015, 12:49 am

I'd be down to help. I have some coding knowledge in C, so I can read code, debug decently, and write some of the basics. I can efficiently spread and maintain a RAT. I'm creative with finding information, so I'm decent at doxing & have people here on HF that can vouch for that one ?

I like to utilize google to strip data, or find vulnerabilities in sites. I basically know a little bit about a lot of things, and would really like to be able to learn from someone experienced, so that I can master a certain field. Let me know if you need anything ?
