WARNING: if you're not up to date with the airing episodes there may be spoilers in the thread.

So I haven't seen any discussion about this show yet. It seems really promising. I feel like everything about it feels really fresh and Studio Lerche are doing a great job IMO. What do you guys think?

Did plan on making a discussion thread for this before, but forgot.

So far, I like it. Should be a good anime this season.

Out of curiosity, what do you think about the story so far? It's a 22 episode series so something tells me they'll either drag it out or pull it off perfectly. I haven't read the manga so I can't say so myself, but I'm wondering if there's enough content to produce the show without filler episodes.

Pretty unique story as I've never seen anything like it before. No idea how the story will play out within those 22 episodes, but do hope there isn't any useless or filler episodes.

I came across the manga for this a few months ago and read around 30 chapters, it's pretty weird but I think other people may like it. I'm actually going to check the anime out right now.

Haven't read the manga, but watch the the recent episodes. It's really not that bad.

Rakshasa - January 22, 2015, 9:32 am

Most promising all-new show this season, in my opinion. Haven't read the manga either, but so far I'm impressed.

I agree though I'm not too impressed, just a bad season for new anime.

I'm enjoying it along with Death Parade, not watching any other shows though I'm not a fan of watching anime as soon as they watch since I prefer to marathon them for maximum feels

Really liked today's episode. Enjoyed it a lot. The new guy was pretty cool.

Yeah I think he is pretty badass. I could the from the end of last episode.

This was the show I was most looking forward to before the season started, but it's the show I'm the least into actually... It just seems a bit boring honestly - although I heard the manga was really good

Trihunter3 - January 25, 2015, 12:16 am

I am starting the first episode now.

KyHax - January 25, 2015, 4:24 am

Was going to make a review thread on this, might do it later or when I finish the anime. Anyway, it's amazing so far and can't wait to watch more of it.

I'd suggest at least waiting for it to finish airing before reviewing. The last episodes can be a deciding factor.

You should wait for the show to finish airing. Writing reviews for airing shows is a bit silly as you might end up having to constantly update your review and the show can quickly change. Movie critics don't write reviews halfway through the movie.

This anime is by far the funniest anime that I watched this year. Everything about it is just so great. Currently watching the dubbed version and it's honestly been one of the best dubs I've heard as well.

I'm excited for the second season coming next year.

Nagisa's physique and hairstyle makes me feel uncomfortable though. He has trap written all over him.

I'm curious to know how everyone else is enjoying this anime, been a while since this topic had light.

My favorite character is Karma if you can't tell by my avatar.

Aura - June 27, 2015, 7:20 pm

Saw this thread today, and it reminded me that I started reading the Manga around a year ago but didn't finish it. Decided to watch the Anime instead and I watched the whole season in only a day. Really hyped for Season 2 and there's still so many questions that have yet to be answered.

Also Nagisa is definitely a trap.
