Omnicoon Android Wallet

After a long development, the Android Wallet is finally ready to be used.

The app has not undergone much testing, so I urge you to use it with caution, although I believe it will work fine. If you find any bugs, please report them to me.

If you have any issues, please post questions below and I will do my best to resolve them.

If you want to contribute to omnicoon Wallet, the project is located at <https://github.com/MeshCollider/omnicon-wallet>

The app uses OmnicoonJ, which can be found at <https://github.com/MeshCollider/omniconj>

You can read more about the development process here:
[Omnicoon android wallet and OmnicoonJ Development](#)

If you like the app, please feel free to donate. Simply open the menu, choose "Tip / Donate" and enter an amount ?

Please also take time to rate the app and review it.

As of this release, NFC Payments have not been tested, and exchange rate display is not working. I will work on adding exchange rate information, and will also work on a utility to allow users to extract/dump their private keys from a wallet backup to ensure maximum safety.

Features

- No registration, web service or cloud needed. This wallet is de-centralized and peer to peer. (based on omniconj)
- Display of omnicoon amount in OMC, mOMC and μ OMC.
- Sending and receiving of omnicoon via NFC (not tested), QR-codes or omnicoon addresses.
- Address book for regularly used omnicoon addresses.
- When you're offline, you can still pay via Bluetooth (not tested).
- System notification for received coins.
- App widget for omnicoon balance.

Download

View the app in the Google Play Store here:

<https://play.google.com/store/apps/details?id=net.meshcollision.wallet.omnicon>

FAQ

My balance is not updating

Occasionally, the app does not update the balance displayed. Don't worry. You will have recieved the omnicoins, you just can't see them in the app yet. Simply open the menu and choose "Settings", then click "Reset Blockchain". After the app syncs with the blockchain again, your OMC will be displayed.

Disclaimer: This app is not endorsed by the Omnicoin Team, and is to be used at your own risk. I, the developer, am not responsible for any damage caused by the app. Make sure you follow the safety guidelines in the app and ensure you make regular backups of your private keys.

Yoshikage Kira - January 22, 2015, 4:01 pm

This looks really neat, I might try this out later. :)

Jason™ - January 22, 2015, 4:02 pm

Woah, really cool.

I will definitely be checking this out soon.

Effexion - January 22, 2015, 4:03 pm

JUST what I've needed. Been without a system for a while so fell right out of the OMC loop.

Thanks so much to all involved.

Matt AH - January 22, 2015, 4:04 pm

ayyyy my boi Mesh making big moves

Nonetheless a big step forward. Nice job my friend

b?xxy - January 22, 2015, 4:05 pm

Damn Mesh.

I remember when you first started talking to me about this. :O

Glad to see this out!

Trust - January 22, 2015, 4:07 pm

Awesome, man!

Will be downloading this ASAP! ?

SIM-2015410 - January 22, 2015, 4:12 pm

Haha, thanks guys. ?

And here is Omni's comment:

Omniscient Wrote: That's pretty fucking dope dude!

C'mon Omni. ?

It's downloading now.
I might actually get back into Omnicoin.

Hopefully you have more planned in the future to increase Omnicoin's activity.

Hopefully you have more planned in the future to increase Omnicoin's activity.
We also are still waiting on Omni to add the omnicoin plugin to HF, which will be a huge boost to the coin. Then we have a few more things planned. Stay tuned ;)

SIM-2015410 - March 28, 2015, 4:47 pm

UPDATED TO Version 0.2.0

In this version:
* Update to Dark Gravity Wave after block 150,000

Make sure you download the latest version from the Google Play Store.

(Update should be up within a few hours)

Indeed, now I can finally use my Omnicoins. Have been waiting for days.
Thank you a lot, man!

No problem.

If anyone encounters any bugs or needs help, this is the place to post.
