Thread: [How do I resolve TS addresses for the backend IP?](#)

swag god legend - January 22, 2015, 9:17 pm

La01.gameservers.com:9502

I want to hit off this TS, but ldk how to get the IP. Can't find anything on google. Help please.

I don't know if it's allowed. But if it's, you can look [here](#).

EthanX - January 22, 2015, 9:47 pm

middle click on your self on the server and its the ip under server address.

or do this, open cmd or terminal.

It's okay.

We'll love you again<3
