Thread: [Profesional Theme \[3 Controls\]](#)

Naywyn - January 23, 2015, 5:01 am

Hello, here is my new theme called Profesional inspired from Aeonhack's TCP Stresser.

\$lick - January 23, 2015, 5:19 am

Very nice, but the line going through the text is off putting.

CodeBinary - January 23, 2015, 6:09 am

Extremely nice theme but needs a bit more controls.

Fruit Snacks - January 23, 2015, 6:35 am

Excellent, would be better if you fixed the line through the text and also made a better window border :)

SirenNinja - January 23, 2015, 7:18 am

I was just watching the stream with him using that program too. XD.. This is excellent though. :D

Entire - January 23, 2015, 12:23 pm

A radiobutton, a button, a group box that looks ugly. Really? There was no point releasing if that's it.

FRANKIE - January 23, 2015, 12:24 pm

Its a solid look but I think you should add more to it.

Rhez - January 24, 2015, 2:20 am

I think I'm not the only one who don't like your groupbox.

But the rest. Nice (y)

Classified™ - January 24, 2015, 2:50 pm

I really like the sleek design of this theme. Great job! Looking forward to see some more great themes!

Spawner10 - January 24, 2015, 2:59 pm

Keep on , i like it , but maybe would be better if you add 4 or 5 other things !

RatchetB?ooty - January 24, 2015, 9:31 pm

I agree with everybody else, the line through the text on the groupbox has to go. Other than that everything looks very nice. Would love to see more controls though.

iTeDDy - February 18, 2015, 4:51 am

Nice theme! Thanks! ?
35 char
