Thread: [Looking for a website that payout with BTC.](#)

Hello,

I'm looking a website that payout in BTC, I found a method where I can easily sign up / do clicks with different IP each one.

Not looking for website time wasters that doesn't pay or pay shit.

If you can give me a website that can worth my time by doing my cheat , it can be:

- Sign up
- Referral
- Clicks

will be appreciated, payout should be BTC because I do not have anything else.
