Thread: [need to retheme vdos 2.0](#)

'An0ny - January 24, 2015, 1:56 pm

Hi,

I'm looking for someone to swap out the current design of vdos 2.0 with this:
<https://wrapbootstrap.com/theme/kertas-responsive-admin-template-WB048905J>

I'll purchase the template if needed, for documentations etc.

I'd like to know price for this if you are capable of doing it, i want it done asap.

The other theme is also bootstrap, so i don't expect this to be hard or cost tons of cash for just retheme..

Honestly id just do it for free but I kind of want a 1337 upgrade so the price to buy leet would be fair

Still in need of this, i rather pay for it so you can do it properly.

Paying with paypal

I can do that for you. I have a few years of Web Design experience and I am part of this company:
<http://weboptions.gr>

I've also done some personal projects like TheCourseMatch.com

The price for the re-skin will be \$25 with 14 days of support and I can change whatever you want with no questions asked. I will also give you an invoice that you will have to pay through PayPal so I can be covered from the legal side.

P.S. The re-design will be delivered within 72 hours from the day of the payment.

At least its not metro UI... ?

Send me a private message if you still haven't gotten someone to retheme for you. I'm pretty sure my retheme count of this source is close to 7-8 now... lol

FantaŠec - January 25, 2015, 5:58 pm

Work with me over MineSQL, he is clueless in anything but his own SQL ;)

This is still needed, seems like FantaSec/MineSQL are trolling.

when he was away you went behind his back to get me to do it. Then, if we both did it you would only pay one of us and fuck the other one over.

And you contacted him first. Why would I want to work with someone who thinks I'm second tier?

I'm still looking for a rethemer that can do it.

Looking to pay around \$30.00-\$50.00 USD

Szpadyzor - January 28, 2015, 11:01 am
