I am sorry you were not satisfied, with the vouch copy. He told me my method was to common and overpriced, but your paying/vouching for the method, no matter the commonness, buying this will teach you how to make money.

Prepubescent - January 25, 2015, 11:08 am

This is a really good eBook, It works. I will be posting a more in depth review soon. I think iSee3D is just asking for vouch copies so he can leak and or sell his own eBook and recreate it.

Okay, you can make pennies for hours of work.

You could make about \$60 in an hour. Just get off this thread, go trash some where else, Next time I see you, I hope you're banned!

Dude you obviously didn't cause I showed just how much you can earn. After a little bit of scaling up you can earn \$20-40 a day. And the work takes 5-10 mins top!

Please don't get mislead-ed by the thread trashing by iSee3D, I can promise earnings in 7 days at the most.

At the end of the day, an eBook purchase should be defined as either "working" or "not working." In a nutshell, this eBook works, although it requires a bit of effort to do so.

Without leaking the method, I will say that there is a HUGE market for these type of products online. Without a doubt, this niche is profitable, if you know what you're doing. Steam Cash Craze is an old, semi-saturated method. I've seen many variants of this guide floating around the web for the past few years; however, this eBook isn't completely ripped/stolen from them. It is a new take on an old, effective method.

I would buy it if you're willing to put effort into the guide. It's sure to make you money, but obviously the more you put into it (both time and financially), the more you will get in return.

Damien's Official Review

Grammar: 9/10

There wasnt any problem with grammar in the eBook and it was written in simple English. Easy to understand

Content: 8/10

Content was short, but it was based on the topic. Straight forward and no exaggerations

Layout: 8/10

Nothing much stylish and classy about the eBook, but it is not the looks that are important, after all, its the matter that depends. After all - dont judge a book by its cover

Overall: 9/10

The eBook was short, straight forward and up to the point. It was completely related to the topic and I suggest to buy it as it is an extremely good eBook

I vouch for this product. Approved.

Stop giving out free copies. I paid for the e-book and it is well worth the money. I am gonna ss my earnings tomorrow. Most of the users you giving free copies to haven't even reviewed it. Anyways thanks a lot op and I need you to pm me for one method. I have made money but not as much as you for some reason. Ofc I'm happy with the amount I'm making but I really want to make triple digits as I'm stuck getting 50-ish a hour atm. So pm me asap please
