Am I allowed to sell a Minecraft account jacking method? Or is this not allowed?

Shockley - January 25, 2015, 9:50 pm

yes hello op i will take a vouch copy ??

Spoiler [\(Click to View\)](#) it's allowed

?Unadvised - January 25, 2015, 10:08 pm

Will make thread later on the marketplace.

IpSiety - January 25, 2015, 11:13 pm

Since when was a blackhat activity ever allowed for sale in marketplace?

<https://hackforums.net/showthread.php?tid=4023011&highlight=blackhat+ebook>

Using the search feature, no.

Linux™ - January 25, 2015, 11:19 pm

If it involves social engineering then no, the only form of Social Engineering discussion allowed is eWhoring, and doxing methods which belong in the Private Investigation, and anonymity (Excluding blackhat material). Omni would put a boot to your ass, so don't waste your HF L33t.

Else have at it OP, and good luck.

You're not allowed to sell MC accounts so why would you be allowed to sell an MC account jacking method?

ViralDragon must have been on crack when he wrote that.

"All discussions related to Black Hat Activity is disallowed."

Has he seen the Hacking section? ?

You must have just returned to HF. You can sell MC accounts.

OP, people always asked to get jacking methods appraised, there are jacking methods in the Free Hacking Tutorials section, I've seen jacking methods in the Free Giveaways section, you can do this. As long it doesn't involve phishing.

The hacking section is for educational purposes. You can't discuss most blackhat activity beyond that section.

Quote:Disallowed BlackHat Activity

These are the blackhat hacking activities that we do not allow as part of our discussions here on Hack Forums. We don't explain the logic behind each forbidden activity, but it's somewhere between morality, ethics, and legality for each one. We ask that members do not participate in discussion around the following topics. If you've received a warning and been asked to read this, please do so carefully.

Phishing

This was removed from topics on HF a very long time ago. This includes posting phishing tutorials, questions on creating phishing pages, and just about any discussion on the topic. We don't feel this topic adds any value to our community nor does it assist members in becoming better hackers.

Dumps / Combo Lists

Providing accounts that don't belong to you, whether in trades, for sale, or free, dumps are not allowed. The definition of a dump is a file with logins, passwords, personal details or emails. We do define "combo lists" as dumps as well.

Okay, well then please report every blackhat thread service in this section:

[Service Offerings](#)

I took pictures but the file size is too large and cba to shrink it

After you have found all the blackhat hacking service offerings, please further continue to look in this section, where ebooks can be teaching you things like how to hack Facebooks.

[Ebook Bazaar](#)

After you have done that, please continue to look in this section, where very popular services such

as "[TWITTER HACKING TOOL](#)" and other such services can be found.

[Premium Sellers Section](#)

I don't need to cause that's not my responsibility. Just because some people do it, does not mean that its allowed in the rules. You don't have to like them, just know them.

You do realize those rules that you quoted are referring to things like Phishing, fraud, dumps, extortion, ransomware, etc. Where the fuck does it say anything about jacking methods? Maybe unless it's Social Engineering, but OP never even said it was.

Also LOL did you just quote the dump rule? A jacking method isn't the same as posting a dump or an account that isn't yours. Imfao

Ki?rb?y? - January 26, 2015, 9:35 am

I guess you'll need to wait for someone in authority to say as these are the rules in the Minecraft section.

Quote:1. No selling, buying, or trading of MC accounts.

2. No discussions on cracking or stealing MC accounts.

3. No giveaways or requests for free MC accounts.

4. No selling, trading, buying, offering, requesting any MC codes for new accounts.

But... You are able to sell MC accounts if you are UB3R.

He's selling a method on jacking accounts that are not his. It's in the same area, whether its social engineering or whatever. This is illegal activity, and thus it isn't allowed.

CorrixHD - January 26, 2015, 10:04 am

could you please give me the method? I already pmed you :)

Jacking accounts has literally nothing to do with dumps. Is he selling stolen accounts? No. Please tell me how:

Has anything to do with what OP is doing.

Is he providing an account that doesn't belong to him? ?

Is he providing a file with logins, passwords, personal details, or emails? ?

End of story.

He's providing THE METHOD. If you provide a method of how to make crack cocaine, you are just as guilty as selling it, if you knew the intent was illegal.

Sorry, but I don't remember you being staff, I don't see it on your userbar. So I would highly advise OP to wait on staff to give him the correct information, that his method isn't allowed.

That's because the law specifically fucking says you can't sell cocaine. Lmfao there aren't these little "hurr derr well it could be considered "in that area"" as you say LOOOL.

if you think selling a jacking method is the same as dumps then you're retarded.

this forum is filled with jacking methods, i'm going to enjoy seeing how all those people broke the rules.

Spoiler [\(Click to View\)](#)jk i wont see that because they didnt. its literally fucking hackforums, if jacking methods aren't allowed then im done loool but they are so...

Like I've said before, staff already said no. So OP should wait on official staff confirmation that its not allowed. The search feature is our friend, and so are the [Help Docs](#). You can't sell accounts that are not yours, so basic 1st grade logic should ring a bell in your head, that says you can't sell the method to obtain such accounts.

>implying staff can't make mistakes

Quote:Nope. All discussions related to Black Hat Activity is disallowed. This includes ebooks sold on HF too.

That's fucking wrong and VD must be dyslexic. They literally have a section for SQL Injections, apparently "all discussions related to black hat activity" is disallowed though, so Omni must have made a mistake when making that section, huh? Because, you know, all discussion of black hat activity is disallowed.

As [Kirby](#) pointed out:

Quote:1. No selling, buying, or trading of MC accounts.
2. No discussions on cracking or stealing MC accounts.
3. No giveaways or requests for free MC accounts.
4. No selling, trading, buying, offering, requesting any MC codes for new accounts. This rule applies globally, not just to the Minecraft subforum.
