Thread: [Just finished watching The Wolf of Wall Street...](#)

SwiftBot - January 26, 2015, 8:04 pm

Well yeah I just finished watching that shit and im like what the fuck. Why such a ending? Is there going to be a 2nd one? Because I just dont get it. The ending doesn't make sense. The guy that taught the wolf of wall street was sitting right there and the movie just ended. Can you guys explain me the meaning of this.. And are they going to make a 2nd one?

In case you cant remember the ending here:

Read the comments on that YouTube video you posted, it explains a lot. (Kudos to linking it by the way!)

Otherwise, you can just search up wolf of wall street ending analysis for a more in-depth explanation. I would love to make a logical reply of my analysis opinion, but am fearful I will end up copy/pasting others words after I just looked it up.

Sumix - January 26, 2015, 8:21 pm

I watched it a couple of weeks ago, and I found it really interesting. But the ending is really weird, it ends up just like that which makes me think that we might possibly be seeing a sequel to the movie.

IKR!!!! Same fucking thing here. Lets make this shit an open discussion. I need more answers to this. What does HF think about this?? Like I just don't understand. There has to be a sequel!

It's a good read as he describes every aspect of his life starting from early childhood which isn't shown in the movie.

Yep. And the guy who introduces him on stage at the end is the REAL Jordan Belfort haha. Read some of the YouTube comments as suggested above, really insightful.

The movie just uses an overload of women, sex and drugs to attract interest by making it seem like he was an overnight billionaire.

This movie was awesome. But too long for me.. at the end I almost slept :D

Solid Soul - January 28, 2015, 8:48 am

I found this movie very interesting, also this movie is based on a true story it is actually based on the guy named "Jordan Belfort"

There will not be a second movie, the end is about his real life what he is doing right now at this very moment.

He is "teaching" people how to sell certain products.

And of course he is asking way to much money for some teaching xD

Nah lol. I enjoyed every single minute of it. I think it was the longest and best movie I ever saw.

N H L - January 28, 2015, 6:10 pm

I watched the movie a long time ago with my dad when it first came out, haha. I thought it was pretty great, he fucked over so many people. When the movie was over we both were super confused.

If they had a sequel to this, that would be awesome.

Naaaah, I've never been much of a reader to be honest. It's pretty cheap on Amazon... I just might have to pick it up because I really enjoyed that movie. Let me know what you think of it if you finish it anytime soon. ?

LoL I'm glad I've found this thread with this concern which is similiar to mine.. I've been mzing my friends about this none of them have answers lol..

like I can guess that it has a happy ending but I don't really get when Jordan asks the first benchers to sell him the pen he gives them.. Maybe he doesn't want to share his sale tactics but just making the students say about theirs or something? Or he was such a busy trainer so far in the movie and this time he wants to teach the students something for real so he takes time to listen first? I was waiting for any interesting scene but all I got was a bgm and the end credits lol..

A part 2 would be coooooool man

dude this thread has so many other answers like dude there's real jordan in the movie climax xD and it's a real story etc etc..
