Thread: [Chatroulette \(spam\) bot](#)

Lexo - January 27, 2015, 7:10 am

Hi guys,

I need a Chatroulette bot which just can send a message to the people and switch to the next one after some time. That's it. I searched for one but didn't find anything useful so it would be great if somebody got one! contact me if you can help me!

Thanks

I'm not familiar with a bot for chatroulette.. However this one works on Omegle.

There's not a public ChatRoulette bot out, but as the user above me has stated there is an Omegle bot.

As Boxy said, there is no public one. But when you can code or are ready to give a bit money for a coder, he could do it. It's not hard.
