Thread: [Are Leets allowed to sell BTC](#)

Satoshi™ - January 30, 2015, 9:52 am

Hello, only ubers are allowed to sell BTC in the currency exchange place but is there somewhere I can sell BTC as a leet member? or are Uber members the only ones allowed to sell BTC?

You can still PM people asking to buy BTC.

ubers are the only ones allowed to open threads.

anyone can sell buy bitcoin as they please regardless if they are upgraded or not , you just cant open your own thread which means you'll have to pm people or reply to other users threads.

Only Ub3r's can make threads, but you can PM asking someone if they want to buy your BTC or post on their thread asking if they want to buy some.

You can PM a ub3r that is in the currency exchange and sell to them

You simply click a button to apply for ub3r which an Approval Bot will respond to. Just be aware that Omni will look over your profile in depth and if he does not think you're worthy of being ub3r you'll be denied. Usually you'll be able to apply 60 days unless while looking over your profile Omni decides to permanently deny you ub3r. If you are approved you will receive a message stating so and then you will be able to purchase ub3r whenever you have the money and would like to do so.

Any questions? Pm me.

Can I just ask, are you allowed to buy/sell BTC in the crypto currency section (if so, can you do it even if you are not ub3r)?

No you have to be a ub3r to post in the currency exchange and all btc threads have to be there

Please read the 'Important Information and Rules' in the [Currency Exchange](#) section. You should find your answer there. Also, don't get the idea of posting a currency exchange thread anywhere else because you can't post in that section, you'll be banned for not following Marketplace Policies.
