Hello everyone,

I'm Dan, a Freelance Web Developer from the West Midlands (England). I am a Microsoft Certified Professional and have years of industry experience.

I can provide you with:

Wordpress:

Installation, Setup and Configuration, a custom theme created to your design requirements, blog integration (if needed) and Search Engine Optimisation.

MyBB:

Installation, Setup and Configuration, a custom theme created to your design requirements and Search Engine Optimisation.

Standard Website:

Either static or responsive. A website created with valid HTML and CSS to advertise your business, product or service.

Website Hosting and Domain Name:

Although this is a service I do not personally provide - I will give you details on how to get a Domain Name and a 12 month hosting service for £9 per year, with the UK's largest hosting provider - GoDaddy.

If you are interested in any of the above services, please add me on Skype (hf.theoldknight) for a free quote.

Kind Regards,

- Dan (The Old Knight).

Can you post a portfolio of your work?

Last i checked, Microsoft didnt even offer any decent web design qualifications so that part is somewhat irrelevant?

Sadly, I see nothing else on your experience or past work mentioned in the thread. Would find it troublesome to hire you.
