The Rook - February 18, 2015, 12:27 pm

I have dealt a good bit with XTC over the past week or two, so here is my review of his services.

Purchasing codes from XTC is a good option if you are looking to use them yourself personally and immediately.

I would NOT recommend buying codes from XTC that you will not use immediately or plan on reselling.

I have purchased several codes from XTC, and have had issues with 2.

The first issue the code was redeemed by someone else other than myself a few days after he sold it to me.

The second issue being the code appeared to work at first, but when you went to actually confirm the code you find out it was actually de-activated, thus meaning no one could use it.

I understand these codes are originally purchased from a different seller / so the original seller is to blame not XTC

Obviously due to his TOS there are no exchanges / returns, so if you buy 5 codes and don't use them immediately you're out of however much you spent.

Pros:

Great Prices

Quick Delivery

Will offer refund if you let him redeem and it doesn't work

Cons:

Just not good for reseller's purpose

These are just my personal experiences.
