Custom Controls by Saket

Inspiration & Credit to all Theme Creators of the HF

Controls Added on 2nd February 2015

Was trying some white controls & made this... Used them in one of my project as well... Now sharing here...

1) White Button -

Spoiler ([Click to View](#)) Screenshot - [img]http://s25.postimg.org/8jm40g05b/White_Button.png[/img]

Link - <http://pastebin.com/J1Y6jkPk>

2) White CheckBox -

Spoiler ([Click to View](#)) Screenshot -

Link - <http://pastebin.com/KDfcudCt>

Note -

1) Controls coded without Themebase...

2) Constructive Criticism & Suggestions are always welcome...

3) Please leave comments for encouragement... ;)

4) Credits to "Aeonhack" for Roundrect function...

5) Will add more controls to this thread on regular basis... ;)

P.S. If you need me to create any control for free then you can post it here... If i think it's worth sharing then i might create & share it... But don't ask for complete theme ;)

They are impressively clean and professional. You could have just named the thread "White

Theme". Looking forward to more controls. Good job.

Actually these controls are part of my white theme which i used in my one project, will post few other controls from same theme after changing few colours & few coding tweaks.

Actually planning to add few more controls tomorrow to this thread from my other custom control attempts ;)

Regards
Saket

I love pure white themes mostly because you don't see them that much; i like your controls very simplistic but beautiful

nuk - February 2, 2015, 7:15 pm

I honestly can say that I really like this & I'm more of a dark-theme kinda person but, when done right, a light theme triumphs all ;) Great job! Looking forward to some more controls.

Xghost7 - February 2, 2015, 7:19 pm

Amazing mate, they look really good, looking forward to more controls.

lastday - February 7, 2015, 6:51 am

it look wow. im new in programing, first step i will copy paste then try it.i wish you share it on youtube with deep explanation. anyway thank for the source code dude.

Cisteriaso - February 7, 2015, 7:17 am

Very good work, impressive, keep up the good work on this one. Looking forward for more themes/controls from you.
