Thread: [Wander MMO + License Key | Middleman Accepted \(Windows, Linux & Mac\)](#)

Deathbox - February 2, 2015, 10:08 am

Game Information

<http://www.wanderthegame.com/p/wander-is-world-focused-on-exploration.html>

Footage:

[Video: <https://www.youtube.com/watch?v=F2hRrAwlQE0>]

I purchased a copy of Wander when it was in first initial Alpha. It has since been updated, however it is still in Alpha stage. I originally got this game due to support for the oculus rift and it being cross platform. I've been using Linux for many years now, so this was a plus.

Payment Methods:

BTC (£8 GBP @ Preev - Bitstamp Source)

<http://preev.com/btc/gbp/source:bitstamp>

Skrill - £8

www.skrill.com

I no longer accept PayPal because I have closed my account and I want rid of those thieving bastards. This will arise concern for some of you no doubt, verified middlemen can be used to substitute any suspicions you may have.
