Savage Matt - February 3, 2015, 10:05 pm

Looking to build my team for SavageSquad!

Hey guys owner of <http://SavageSquad.net> a Community / Business forums here. Today I am looking for "employees" or "team members" if you will. If you offer any of these services below and are struggling to get your name out there, or struggling to bring in a little bit of extra income to fund whatever it is you need funding for, I have the perfect solution! If you fit any of these job titles just shoot me a message, comment below, or add my skype : So.odd

During this business opportunity with me you will be:

- 1.) Making your own hours.
- 2.) Virtually deciding how much you're getting paid per job done.
- 3.) Learning great methods of Internet Marketing, IRL Marketing, Real life Business, Presentation, People skills, and much more!

I don't want to go into full detail of what you will be doing here but I can give you a aspect of about how much you would be making / what I'm looking for to join the team.

What I'm looking for:

- 1.) Webdesigners
- 2.) GFX Designers
- 3.) Cyber Security analysts
- 4.) Computer Security analysts
- 5.) Website Specialists (SEO specialist, Traffic specialist, Social Media Specialists, ect)
- 6.) Internet Marketer (To work as a mentor)

I also need some other service specialist so if you have a unique job title or specialize in any online field feel free to send me a message via skype, below here, or my forums inbox.

What you should expect to make per job(This will vary if you decide to change YOUR prices):

- 1.) Webdesigner - 60-120 usd per job (a days work or so depends on your skill level.)
- 2.) GFX Designer - 10-30 usd per job (Depending on the GFX you're creating and your own prices of course.)
- 3.) Cyber Security analyst - You would be appealing to small time businesses so I will FULLY allow you to decide your own price.
- 4.) Computer Security analyst - 5-10 usd per job (I'm only expecting 5-15 minute jobs)
- 5.) Website Specialist - I will allow you to make your own prices on this field as well because you will be working hand and hand with the Webdesigners clientele
- 6.) Internet Marketer - I will expect anywhere from 20-50 usd per job, But after the setup if you play your cards right you could be earning x2 that DAILY from your clientele. (I expect the job time to be done in a timely manner but work at a pace your client will keep up)

This is my layout guys, If you want to know the full fledge report on how this operation will work simply comment your skype, message me here, message me on my website (

<http://savagesquad.net> my names SavageMatt) or simply shoot me a message via skype : So.odd I am also looking for popular streamers / youtubers / social media pages that have a large amount of traffic / anything similar for a completely different project.
